

HIDDEN BEAUTY

Driven by design freedom

Bringing a new level of design freedom to Australasian bathrooms, Geberit's concealed cistern technology combines aesthetic beauty with reliability and water efficiency.

Having pioneered concealed cistern technology in Switzerland for over 60 years, Geberit continues to drive the market forward with its innovative button and cistern combinations. Whether you're seeking to maximise bathroom space or achieve the clean lines of a striking wall hung pan, Geberit makes it possible. Geberit's unrivalled design flexibility is reshaping the bathroom in new and exciting ways.

Engineered with Swiss precision

Focused on achieving the highest levels of quality, Geberit manufactures most cisterns in Germany and flush buttons in Switzerland, supported by a global manufacturing network to ensure consistent quality and performance.

Every Geberit cistern is designed for leakproof reliability and complete peace of mind. Trusted by millions worldwide.

World leading design

Working in partnership with leading global designers, Geberit's extensive choice of button designs and finishes offer high quality design options for every type of bathroom.

The Sigma50, Sigma01 and Omega20 buttons were designed by Christoph Behling and his team.

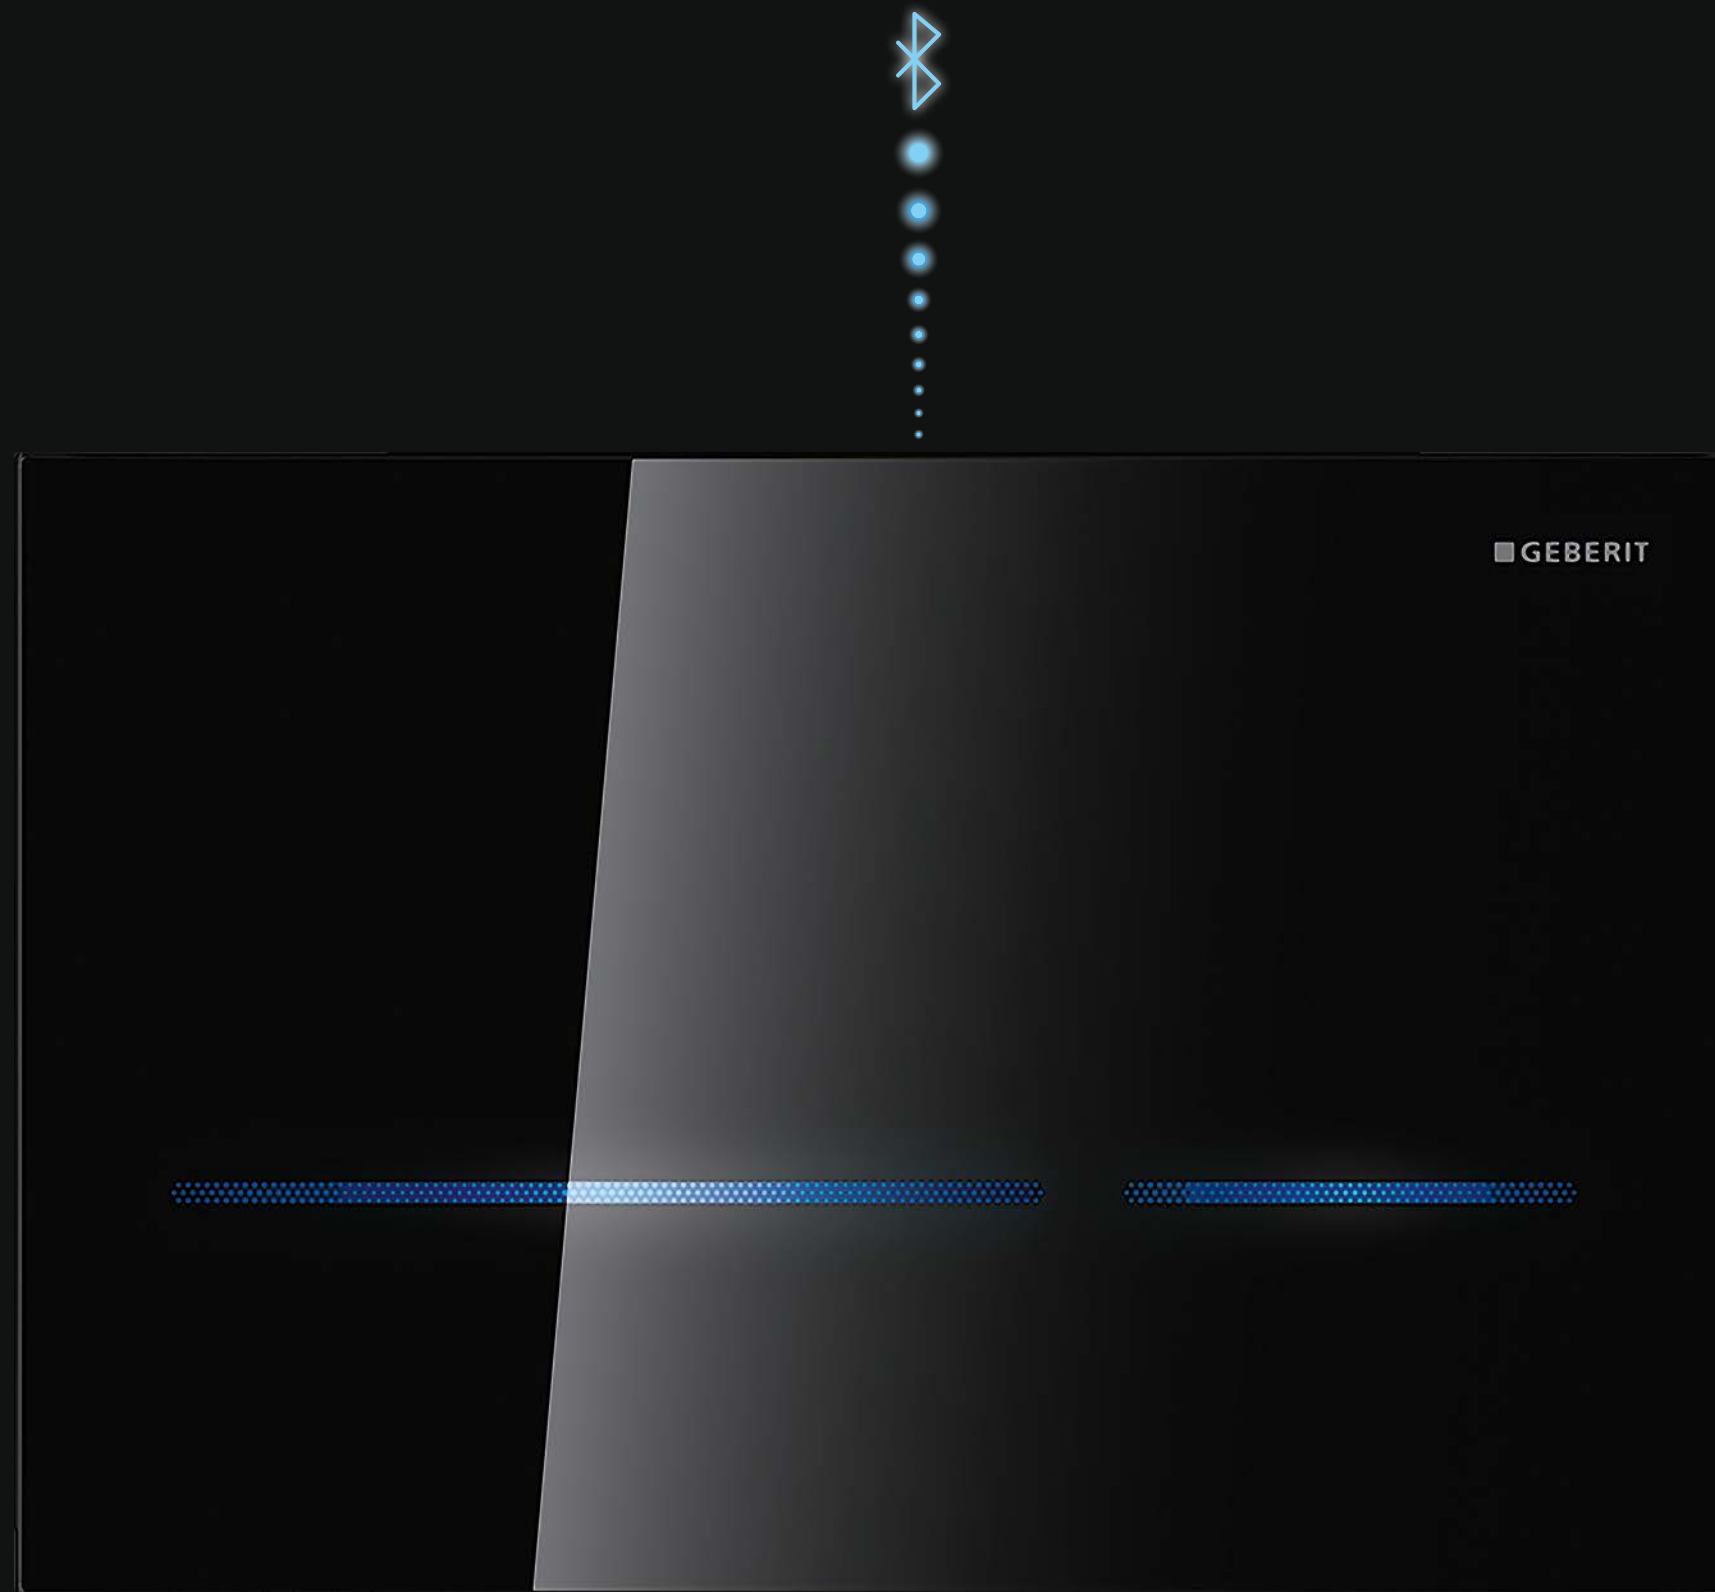

"We have designed these buttons with love and patience to produce a high quality product that cannot be found in mass-produced items."

Christoph Behling
Designer for Geberit

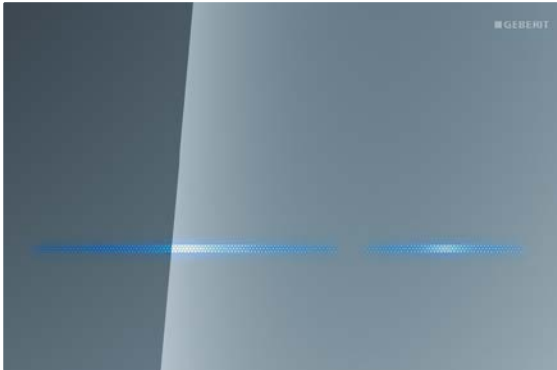

DESIGN
MEETS
FUNCTION

Sigma

Sigma's extensive range of buttons offers design freedom at the front of the wall. Suitable for traditional in-wall installations, the range is simple to install based on standard Australian construction practices. Sigma allows for uninterrupted wall and floor tiling. This highly desired look achieves clean lines and the appearance of additional space.

Sigma80
The new wave

-  Motion sensor
-  Auto Flush
-  5x LED Colour Settings
Always On/Always Off
-  Cleaning Mode

Touchless dual-flush reflective glass 

Sigma80 represents the forefront of modern design. A minimalist glass finish hides the advanced technology that allows for touchless flush activation. A full or half-flush is achieved with the wave of a hand. Choose ambient setting for the LED light bar and you can light the way to the bathroom at night. Plus, the LED can be set to always on or always off. Activated by sensor movement, a convenient auto-flush function can also be selected.

Adjust your Sigma80 settings with the Geberit Control App:

Vanity, basin, toilet, tapware and mirror not available in New Zealand.

Sigma70
The designer touch

Brass

● ● ● ● ● ● ● ● ● ●

Characterised by its minimalist, floating design and the highest aesthetic standards, the Sigma70 range is available in a variety of architectural colours and materials. The two buttons are precisely coordinated for a homogenous panel surface that looks like it has been made from a single piece.

Vanity, basin, toilet, tapware and mirror not available in New Zealand.

Sigma50
Subtle curves

Concrete Look Plate
Chrome Button

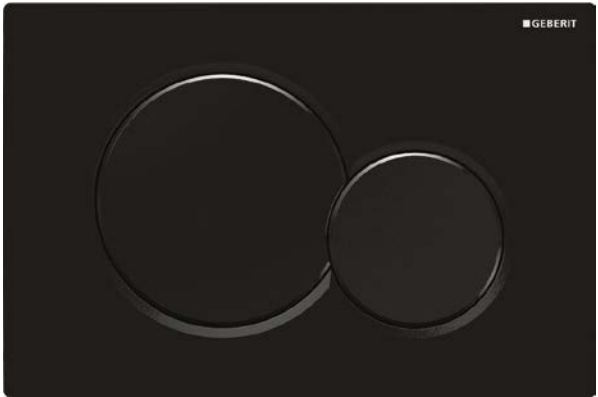

With its slimline buttons and subtle curves, the Sigma50 draws the eye to give the impression of depth. The Sigma50's modern metallic finishes including timeless chrome, red gold, brass and dramatic black. Also available in concrete-look solid surface materials and wood to suit individual bathroom styles.

Designed by Christoph Behling
Lead Designer, Geberit

Toilet not available in New Zealand.

Sigma01 Round
Inspired by nature

Black

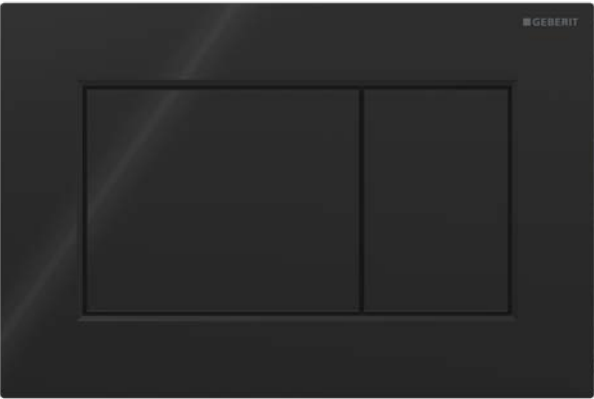

Inspired by the interplay of water droplets, the interlocking circles of the Sigma01 range complement softer organic lines within the bathroom. Four impressive finishes allow for either dramatic contrast or seamless integration into your space. The satin chrome finish also features an Easy-to-clean coating that is fingerprint resistant and easy to wipe down to keep the bathroom hygienic.

Vanity, toilet, tapware and mirror not available in New Zealand.

Sigma01 Square
Inspired by precision

Black

Inspired by the interplay of straight lines and perfect angles, the Sigma01 Square brings a sense of geometric harmony to the bathroom. It's structured form complements modern architectural elements while maintaining a refined aesthetic. Four impressive finishes allow for seamless integration into your space. The satin chrome finish also features an easy-to-clean coating that is fingerprint resistant and simple to wipe down, helping keep your bathroom hygienic.

Vanity, toilet and mirror not available in New Zealand.

Sigma Remotes
Position perfect

Chrome

Geberit's range of Sigma remote buttons can be installed up to two metres from the concealed cistern. This flexibility opens up a range of positioning options, such as locating the button to the left or right of the pan, while offering space-saving design with convenient dual-flush functionality.

reddot award 2015
winner

Toilet and bath not available in New Zealand.

Omega

If space is at a premium, Omega button and concealed cistern combinations provide a range of installation options for under counter or low height installations. This allows for the cistern to be installed in a hob, under a window or within a custom vanity.

The button can be located for top or front press, providing additional versatility.

Omega01
Architectural elegance

Brushed Nickel

The Omega01 range combines minimalist design with a curated palette of PVD finishes, including Brass, Brushed Nickel, Black Chrome, Red Gold and Matt Black. Each plate features an Easy-to-Clean and fingerprint resistant coating for effortless maintenance, bringing refined style and practical performance to modern bathrooms.

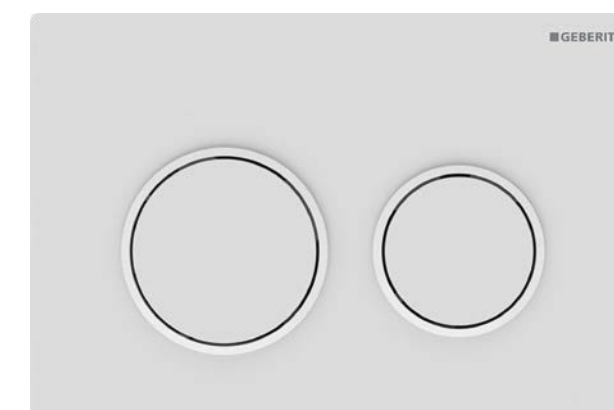

Toilet and shower not available in New Zealand.

Vanity, toilet and mirror not available in New Zealand.

Omega20

Understated elegance

Matt White, White

The Omega20 button range combines compact dimensions with simple, geometric shapes to achieve understated elegance in the bathroom. The circular buttons act as a visual symbol for flushing volumes - a perfect blend of design and function. The tone-in-tone finish is perfectly suited to the interior design trends for elegant monochromatic palettes with bold colour statements. The satin finish also features an Easy-to-clean coating that is fingerprint resistant and easy to wipe down to keep the bathroom hygienic.

Toilet not available in New Zealand.

The Geberit collection

The Geberit button and cistern collection offer limitless possibilities for achieving your desired bathroom look - matched with outstanding performance and function.

Sigma Buttons

Sigma50
Subtle curves

Slimline curved buttons and modern finishes that suit most individual bathroom styles.

Sigma01
Inspired by nature

A design inspired by the nature to complement the organic lines of your bathroom. The satin chrome finish features an Easy-to-clean coating that is fingerprint resistant and easy to wipe down to keep the bathroom hygienic.

Sigma Remotes

Round
Dual-flush button

An unobtrusive round button design that complements most bathroom tapware.

Raised Care
Dual-flush button

A compact, square chrome finished raised button designed specifically for people with restricted movement.

Sigma Cisterns

Sigma8
Wall hung

The Geberit Sigma8 Cistern with frame allows for mounting your wall hung pan and is slim enough to fit within a standard 90mm wall cavity.

Sigma8
Back to wall

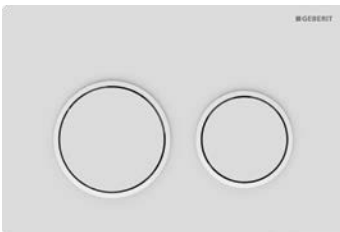

The Geberit Sigma8 Concealed Cistern is designed for use with a floor mounted back to wall pan and fits within a standard 90mm wall cavity.

Omega Buttons

Omega01
Architectural elegance

Omega01 range combine minimalist design with curated palette of PVD finishes, including Brass, Brushed Nickel, Black Chrome, Red Gold and Matt Black. Each plate features an Easy-to-Clean and fingerprint resistant coating for effortless maintenance, bringing refined style and practical performance to modern bathrooms.

Omega20
Understated elegance

The Omega20 button range combines compact dimensions with simple, geometric shapes to achieve understated elegance in the bathroom. The circular buttons act as a visual symbol for flushing volumes - a perfect blend of design and function. The tone-in-tone finish is perfectly suited to the interior design trends for elegant monochromatic palettes with bold colour statements. The satin finish also features an Easy-to-clean coating that is fingerprint resistant and easy to wipe down to keep the bathroom hygienic.

Omega Cisterns

Omega Undercounter Cistern
Wall hung

The Omega Undercounter cistern with frame is designed for mounting your wall hung pan and fits within 140mm internal wall cavity for front press and 180mm for top press.

Omega Undercounter Cistern
Back to wall

The Omega Undercounter cistern back to wall is designed for floor mounted pans and fits within 140mm internal wall cavity for front press and 180mm for top press.

INNOVATION BEHIND THE WALL

Geberit Concealed Cistern with Duofix Frame

Every Geberit cistern is made from a single piece blow moulded HDPE and individually tested to guarantee water tightness.

VERY STRONG
No wobbling or vibrations – strength tested to bear a weight of up to 400kg.

SIMPLE MAINTENANCE
Geberit stock spare parts for 50 years.

FOR ANY INSTALLATION SITUATION

- 1 PULL-OUT SIDE FASTENING PLATE**
 Pull-out side fastening on the upper frame end for mounting on vertical studs for room-height applications.
- 2 ALTERNATE POSITION FOR WALL ANCHORS**
 An additional fastening hole for wall anchors to adjust their position to suit the structural conditions, e.g. in the case of obstacles or cables behind the wall.
- 3 SUITABLE FOR 250 MM HIGH FLOOR CONSTRUCTION**
 Extendible leg supports with a larger adjustable range for floor constructions up to 250 mm.
- 4 CLEVER FOOT PLATE DESIGN**
 Thanks to a hollow space, the foot plate can also be mounted above the fastening screws on the floor profile without the screw head getting in the way.

OPTIMISED HYDRAULICS

- 5 HIGH PERFORMANCE FLUSH VALVE**
 The Geberit flush valve delivers reliable performance and easy maintenance in concealed cisterns, backed by decades of proven durability.
- 6 QUIET INLET VALVE**
 The Type 383 inlet valve ensures consistent, quick filling with minimal noise emissions.

EASY HANDLING

- 7 ADDITIONAL MARKINGS**
 Markings on the blue frame make measuring easier for the centre of the threaded rod and middle of the connection bend.
- 8 SCREWS WITH HEXALOBULAR SOCKET (TX)**
 Screws with an additional hexalobular socket (TX) offer an additional choice of tool when working with a cordless screwdriver.
- 9 SIMPLE ADJUSTABLE PIPE BRACKET**
 The pipe bracket can be easily adjusted to suit the position of connection bend by sliding to ensure tension-free installation of the connection bend.

CO₂ REDUCTION

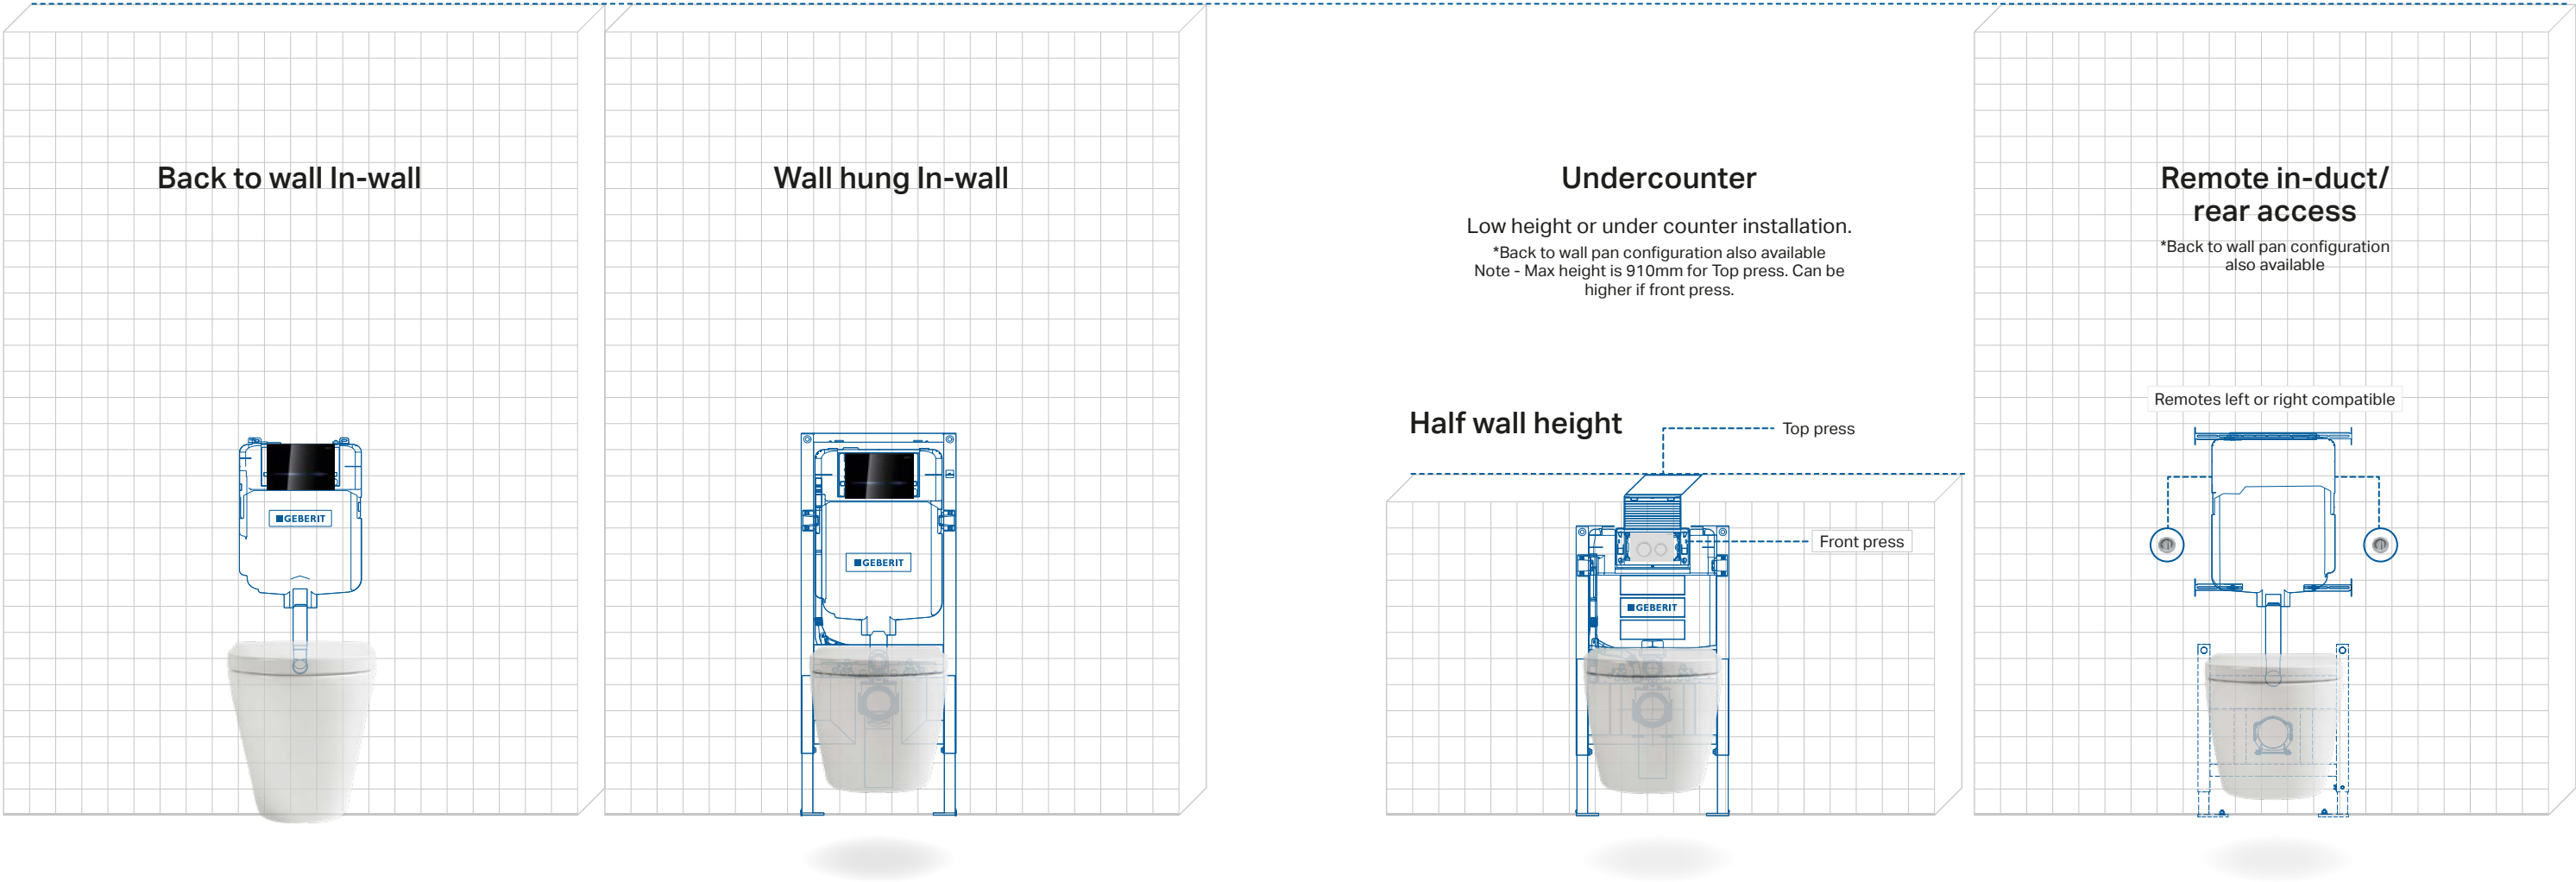

Thanks to a sophisticated design, the deployment of less material and the use of green electricity in production, each new Duofix element for wall-hung toilets results 10% fewer CO₂ emissions compared to its predecessor.

Types of Access

Geberit concealed cisterns are designed to maximise useable space in the bathroom. They are modern and provide a cleaner look by hiding the cistern in wall. For 60 years, Geberit cisterns have been installed around the world – delivering proven reliability and excellent hygiene.

Sigma in-wall cisterns can be installed – back to wall or wall hung in the bathroom. Omega cisterns are intended for low height applications including under-counter or in a vanity/hob and allow the freedom of choice with back to wall or wall hung pans. For more challenging bathroom applications, Geberit Remote concealed cisterns can be installed in-wall or in-duct configurations.

Standard wall height
