

KADO

Aspect Rectangle Veil LED Mirror 800x1200mm

- First tap to turn ON the direct and the 360° ambient light.
- Second tap to turn OFF the direct light and keep ON the 360° ambient light.
- Third tap to turn OFF the mirror.
- Double tapping the sensor changes the light color (Kelvin temperature).
- When the mirror is on, keep your finger resting on the touch sensor to adjust the intensity of the light (10% - 100% and vice versa), when the desired intensity is reached, remove your finger and the sensor "saves" the chosen value.

Sensor touch button with color change and dimmer function

When the mirror is turned off, the last settings, both Kelvin and intensity, are saved and will be restored the next time the mirror is turned on, even if using a wall switch.

- The defogger is activated automatically when the lighting is turned on.
