   - some instantaneous water heaters
   - some tempering valves
   - some thermostatic mixing valves
2. Some shower heads only operate correctly when hot and cold water supplies are both mains pressure and may not be suitable for some instantaneous hot water services.

The tools you will need: screw driver and drill.

1. To ensure compliance, please refer to AS/NZS 1428.1-2201 for specific installation requirements.
