Connecting you with more.
ENKi brings simplicity and versatility
to every job. And with new endless
configurations of different pipe and
fittings, you'll have all you need to help
your next irrigation project flourish.

Dripline

ENKi Dripline delivers water straight to the soil, above the plant's root zone, allowing for direct absorption and minimal water waste. Featuring a large flow path, ENKi Dripline reduces the probability of clogging giving you peace of mind on every job.

Benefits

2 litres per hour

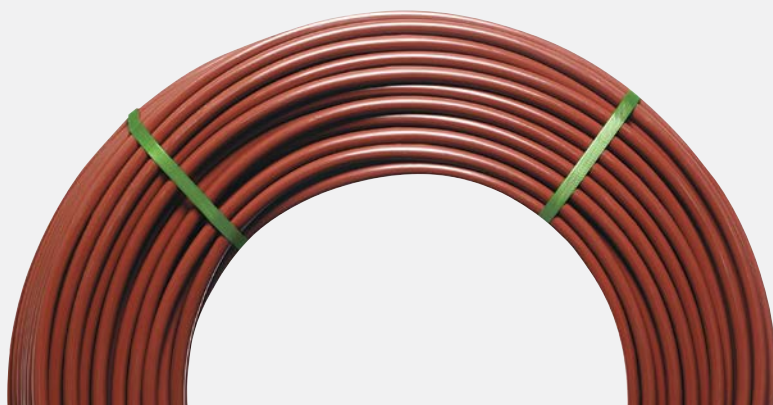

Large 13mm flow path – less likely to clog

50 and 200 metre coils

Pressure compensated anti siphon

30cm and 40cm spacing available

Compatible with all standard 13mm micro fittings

ENKi Dripline Brown

Code	Description	Size
1542487	ENKi Dripline Brown	30cm x 50m
1542488	ENKi Dripline Brown	30cm x 200m
1542498	ENKi Dripline Brown	40cm x 50m
1542499	ENKi Dripline Brown	40cm x 200m

ENKi Dripline Purple

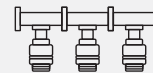

Code	Description	Size
1521501	ENKi Dripline Purple	30cm x 50m
1521502	ENKi Dripline Purple	30cm x 200m
1521503	ENKi Dripline Purple	40cm x 50m
1521504	ENKi Dripline Purple	40cm x 200m

Flow Rate LPH	Emitter Spacing (m)	75kPa	100kPa	150kPa	200kPa	250kPa
2.0L/Hr	0.3	49	62	78	90	100
2.0L/Hr	0.4	62	79	100	116	128

Internal Diameter	Outside Diameter	Wall Thickness	Pressure Range
12.9mm	15.3mm	1.2mm	4-35m

• Manufactured from UV-Stabilized low-density polyethylene • Operating pressure: 40–350kPa • Compatible with all standard 13mm micro fittings
• Pressure compensated and Anti Siphon * Maximum run length of single lateral on flat ground (based on 5m residual pressure at the end of the lateral)

FastFit Manifold

The ENKi FastFit Manifold is a strong, versatile and easy to use system for irrigation installers. The large selection allows for an endless number of configurations.

How it works

ENKi FastFit Manifold Fittings are assembled by inserting the coupling between two fittings, pressing the fitting together and sliding the locking clips over the lugs. Each join requires two clips and a coupling, except the inlet and the end cap which have built-in coupling.

Benefits

Fast to install with just one push clip

Can be pressurised immediately without tools or glue

Unique O ring design prevents overtightening – and eliminates leaks

Union fittings allow for easy removal or addition of valves without disassembling the manifold

UV resistant and durable, made from virgin engineered plastics

Technical Information

Maximum operating pressure 1400kPa

Tested to 1600kPa

UV resistant

Micro Irrigation Fittings

ENKi offer a range of Micro Fittings designed for standard low pressure poly tube, built for enhanced chemical resistance. Available in 13mm, 19mm, and 25mm.

Benefits

A range of virgin polypropylene fittings with enhanced resistance against chemicals

Designed to suit standard low pressure poly tube

Sharp tapered barb on all fittings for easy installation

Smooth edge lock-tight ratchet clamps

Operating pressure rated to 300kPa

Barb Joiners

4mm Tube Coil

Meet our ENKi 4mm Tube Coil. Built for enhanced reliability with thick walls, this premium product connects your poly and micro drippers and sprays.

Benefits

Premium wall for increased durability and longevity

Easily joins with the ENKi range of 4mm fittings

Tube strength keeps micro sprays and jets upright

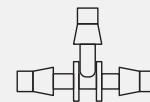

Suited to a wide range of landscape applications

Tube Coil

Code	Description	Size
1545456	ENKi Flexible PVC Tube	4mm X 5m

1545458	ENKi Flexible PVC Tube	4mm X 50m

4mm Micro Fittings

The crucial connection between your 4mm Tube Coil and Micro Drippers and Sprays, this range of Micro Fittings is built for performance.

Benefits

ABS and UV resistant for increased longevity

Sharp tapered barb on all fittings for easy installation

Supported by ENKi 4mm Flexible PVC Pipe

Articulated Risers

ENKi Articulated Risers are specifically designed for pop-up sprinklers, shifting up or down in seconds. Get maximum flexibility from your sprinkler system without trenching or running new pipe.

Benefits

- UV resistant to suit the harsh Australian sun
- Polypropylene for chemical resistance
- Increased longevity
- Precision production for accurate threads every time

Artic Riser

Code	Description	Size

1545464	ENKi Artic Riser MF Elbow	15mm
1545465	ENKi Artic Riser MF Elbow	20mm
1545466	ENKi Artic Riser MF Elbow	20mm

Poly Risers

ENKi Poly Risers are built from high quality materials to ensure strong connections over many years, with UV resistance that ensures long term performance – even in direct sunlight.

Benefits

- UV resistant to suit the harsh Australian sun
- Polypropylene for chemical resistance and increased longevity
- Precision production for accurate threads every time

Poly Risers

Valve Boxes

ENKi Valve Boxes deliver tough, reliable protection. Designed to withstand harsh Australian conditions, they offer easy access, a clean finish and long-lasting performance.

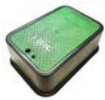

Benefits

Moulded from recycled polypropylene materials

Light weight robust construction

Sizes to suit majority of installations

Reclaimed water detail options
