Installation

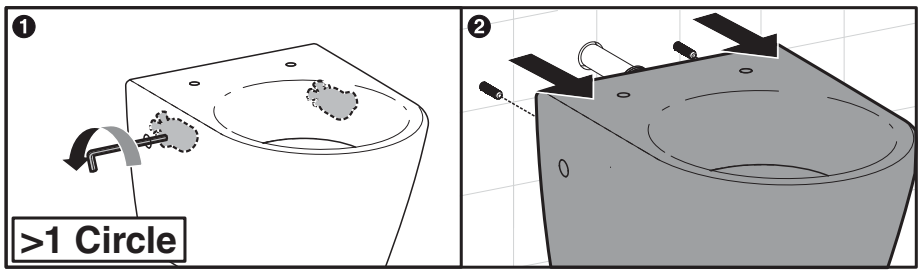

Important

Once inwall cistern and brackets have been installed as per manufacture's installation instructions, please implement the following steps to install pan.

1. Cut flush pipe and outlet pipe to correct length.
2. Ensure inlet and outlet pipe are securely fixed into place prior to installing pan. (lubricate kee seal and outlet seal for easier installation)
3. Fit pan with wall hung fixing brackets supplied with pan, follow the instructions enclosed with brackets.
4. Flush test several times and check for any leaks
5. Joint seal pan to wall using silicone. Finally once set caulk around outer edges.
6. Install soft closing toilet seat (refer instructions supplied with seat).

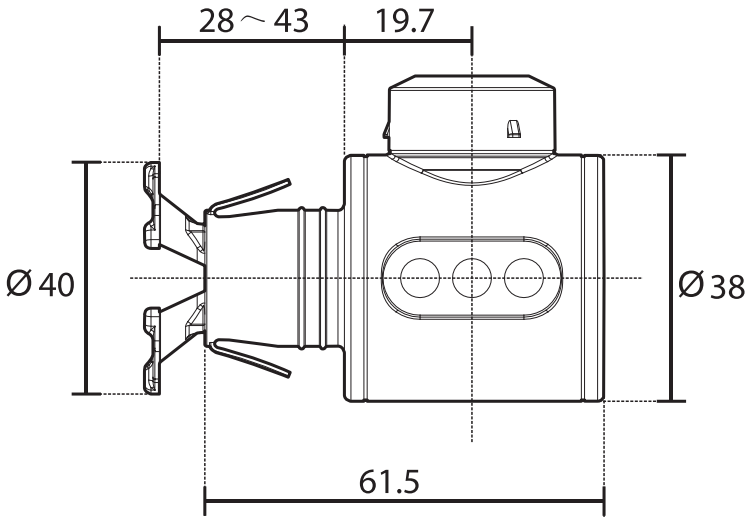

Disassembly
