Roca is a family-owned company dedicated to the design and production of solutions for the bathroom space. From our beginnings, we have grown into one of the largest producers of bathroom products in the world. Our designs are intuitive and intentional, driven by a philosophy of continuous improvement. Our team of experts works with leading international designers to create products that push the boundaries of innovation, refining your bathroom while bringing comfort and simplicity to your daily routine.

Despite our presence in over 170 markets, we have remained close to our Barcelona roots, contributing to and drawing inspiration from its vibrant design culture. Our products are designed for efficiency and durability, and sustainability is ingrained in everything we do - from sourcing materials to production, logistics, packaging and shipping.

Beyond our products, we address critical challenges through We Are Water foundation, promoting sustainable water management and improving access to clean water in disadvantaged communities. We are also committed to fostering talent and creativity.

Our design competitions provide opportunities for emerging designers, while our Roca Galleries and digital platform [rocagallery.com](https://www.rocagallery.com) host events, discussions, and feature articles on key global issues. As a leading multinational, we participate in key international events including Salone del Mobile, ISH, Expo Revestir, KBC and BDNY, sharing our values of innovation, sustainability, and teamwork.

We celebrate the small, everyday moments of domestic happiness. At the heart of our business is the desire to develop attractive and functional solutions that make people live the best bathroom experience.

**We make
people live the
best bathroom
experience.**

Smart Toilets

Roca's smart toilets offer a range of options to suit different preferences and budgets combining cutting-edge technology, hygiene and comfort to provide users with a modern bathroom experience.

Combining cutting-edge technology with maximum hygiene and comfort

Technologies

In-Wash®

Complete wash. Built-in retractable nozzle that directs the water to the most intimate parts, guaranteeing a comprehensive cleanse.

Customisable. The position of the nozzle, the water and air pressure, and the temperature can all be regulated and adjusted.

Easy and Total Control. Remote control and side panel to control the functions.

Cleaning. Automatic cleaning of nozzle before and after each use, and water filter that removes waste and impurities. The detachable nozzle ensures effortless cleaning and maintenance.

Easy assembly. Straightforward installation with a standard utilities connections.

Coanda effect. High-performance drying in which fluids tend to follow the surfaces. The design of the nozzle directs air to the precise point where it is needed for peak drying performance at any power level.

Multi-Stream. Different rear wash modes to suit individual preferences.

Roca Rimless® Vortex

Maximum hygiene. A real rimless solution with a powerful 360° flush exceeding EU hygiene standards. A design that facilitates cleaning with minimal water consumption.

In-Tank®

Space-saving. In-Tank® technology, a signature innovation by Roca, where the water tank is integrated in the bowl, maximising available space, unifying aesthetics and practicality in the bathroom.

Materials

Supraglaze®

Antimicrobial. Super smooth surface of this antimicrobial glazing prevents the spread of viruses and growth of bacteria.

Extremely smooth Surface. Waterproof, shiny, smooth surfaces. Sustainable, less water and cleaning products.

Efficient cleaning. Allows any dirt particles to slide off and inhibits the buildup of dirt.

In-Wash® Inspira

In-Wash® Inspira Collection is the perfect solution for your daily hygiene. Uncomplicated and straightforward. Its remote control is absolutely intuitive and anyone can easily customise its settings through its simple interface.

Iconography

	Roca Rimless®	An interior bowl with no hidden nooks and crannies for dirt and germs to accumulate makes cleaning easier than ever.		Supraglaze®	Roca's exclusive glazing which guarantees even greater hygiene as any dirt particles and bacteria are more easily removed.
	Roca Rimless® Vortex	A real rimless solution with a powerful 360° whirlwind flush system with an enhanced water path to ensure complete coverage of every part of the bowl up to four times.		Soft close	Roca's soft close system that cushions the fall of the seat and lid.
	In-tank®	In-Tank® technology, an exclusive Roca innovation, in which the water tank is integrated into the bowl, maximizing the available space.			

In-Wash® Inspira Close Coupled Back to Wall Smart Toilet

Soft close seat
Rimless design
WELS 4 star, 4.5/3 ltr flush

 Requires power supply and external water inlet
 Built in backflow prevention system, no RPZ valve required

Iconography

	Rear Wash with Airtech	This technology ensures highly effective cleaning using advanced engineering that injects air into the water stream.		Front Wash	Airtech technology is used, where air is mixed into the water for a better cleaning result. Fully customisable with adaptable water temperature, nozzle position and water pressure.
	Coanda Effect	By directing air precisely where it is needed, this feature provides maximum drying performance at any power level.		Roca Rimless®	An interior bowl with no hidden nooks and crannies for dirt and germs to accumulate makes cleaning easier than ever.
	Roca Connect	Users can adjust process settings, schedule maintenance, and control washing and drying functions remotely, and receive useful notifications and consumption statistics.		Flush	Dual flush options for water conservation.
	UV Light	Automatic self cleaning of the nozzle with water and UV light before and after each use.		Soft close	Roca's soft close system that cushions the fall of the seat and lid.
	Heated Seat	The seat temperature can be customised to your preferred comfort level.			

Multiclean® M4

Integrating seamlessly with most of Roca's existing toilets, the Multiclean® M4 offers a new level of comfort and cleanliness with advanced cleaning capabilities and smart technology. With its sleek design and IoT, this fully configurable smart toilet offers state-of-the-art washing and drying technology, as well as various features that enhance comfort and simplify cleaning and maintenance.

Tapware, Accessories, Mirror and Furniture not available in Australia.

Bathroom Collections

The design and innovation of bathroom collections that transform the everyday bathroom experience is woven into the 100-year history of Roca. A combination of traditional stoneware and high-tech innovation in ceramics generate durable and anti-bacterial surfaces with new aesthetic possibilities for different shapes and designs. Technologies such as Roca Rimless® underscore the company's ongoing passion to create the best bathrooms for everyone. An extensive range of styles can be found in basins, toilets and bidets. Each piece is set apart by their diverse aesthetic and remarkable longevity, a key characteristic of sustainability.

Key Benefits

Hygiene. Zero porosity surface that prevents the absorption of water and the proliferation of humidity and bacteria.

Quality. Made with an exclusive mineral composition, our consistent and robust pieces undergo rigorous testing and controls.

Durability. The high-quality glaze provides stability against abrasive products, extreme temperatures or ultraviolet light.

Resistance. Solid and robust, with outstanding static resistance verified by load tests of up to 400 kg.

Technologies

Roca Rimless®

Easy cleaning. An interior bowl with no hidden nooks and crannies for dirt and germs to accumulate makes cleaning easier than ever.

Effective flush. Maximum power propels the water with more force and distributes it evenly over the entire surface ensuring a more effective hygiene, surpassing EU standards.

Roca Rimless® Vortex

In addition, Roca Rimless® Vortex features an improved water flow with three extra benefits:

Maximum hygiene. An effective 360° whirlwind flush system with an enhanced water path to ensure complete coverage of every part of the bowl up to four times.

Extra silent. A smoother and more efficient water outlet reduces turbulence and noise.

No splashback. The optimised circular motion of water puts an end to splashing and considerably reduces the effect of aerosols.

Each piece is set apart by their diverse aesthetic and remarkable longevity, a key characteristic of sustainability

A combination of traditional stoneware and high-tech innovations in ceramics enable new aesthetic possibilities

Materials

Fineceramic®

Lightness. Thinner walls that allow basins to be shaped with 40% less thickness.

Firmness. Innovative formulation creating parts that are 30% more resistant than conventional ceramic products.

Hygiene. 100% ceramic material with zero porosity vitrified enamel.

Durability. High resistance to abrasive products and ultraviolet light.

Supralit®

Hygienic. Zero porosity surface that prevents the absorption of liquids and the proliferation of humidity and bacteria.

Easy cleaning. Seats free of corners where dirt can accumulate, making maintenance easier.

Resistance. Exclusive formulation highly resistant to chemicals and ultraviolet light.

Sustainable. Supralit® seats contribute to reducing the environmental impact thanks to the 47% recycled material of plant origin used in their composition.

Meridian

Nothing is missing and nothing is superfluous in a series of simple and contemporary contours designed to fit into an endless number of spaces and projects.

Tapware Collections

Sustainability and safety are integrated into every tap.

A perfect union of precision technology and innovative design defines Roca's bathroom and kitchen tapware. Never before have there been so many possibilities designed to appeal to a range of tastes and styles. Sustainability and safety are integrated into every tap with energy saving systems such as ColdStart® and advanced basin aerators limit and monitor water flow, giving each user peace of mind.

Key Benefits

Durability. Exclusive ceramic cartridge, which allows a soft and precise operation, with the guarantee of one million opening and closing movements.

Water savings. Latest generation of flow limiters to 5 L/min, regardless of the pressure system, with water savings of 60%*.

Homogeneous flow. Aerators with excellent aerated jet quality, even under complex pressure conditions. They come with anti-limescale protection for easy cleaning and maintenance.

Acoustic control. Sound reduction system integrated in the cartridges and taps to limit the noise of the water.

Safety. Protective filters included in the aerators that stop any particles coming through from the mains.

Technologies

ColdStart®

Energy savings. Basin models feature ColdStart®, cold water opening that guarantees energy savings of 45%*.

Softturn®

Soft and easy operation thanks to Roca's exclusive ceramic cartridges.

Finishes

Evershine

A high-quality chrome outer layer guarantees a permanent shine and makes cleaning easier.

Everlux®

Brushed Nickel and Brushed Brass finishes feature sophisticated Everlux® PVD technology, creating a fine but extraordinarily durable and scratch resistant finish.

*Based on annual savings for a family of 4, considering 2 minutes per day of toothbrushing and handwashing 5 times a day.

Ona

Whether the desired style is sophisticated or more natural, the possibilities offered will stand the test of time with material and aesthetic dimensions. The beauty of simplicity gently inspires you each time anew, without imposing itself forcefully.

Our contribution to a more sustainable future for all

Our commitment to sustainable development, combined with the pressure on the planet's natural resources and the challenge of climate change, drives us to continually improve the environmental impact of our operations. This commitment is evident in every aspect, from carefully selected materials to thoughtful product design and optimizing transportation methods to minimize our environmental impact.

Products

Dual-flush mechanism. Dual flush cisterns offer adaptable water use, ensuring efficiency for different flushing requirements while reducing overall water consumption.

Smart shower. Smart shower solutions allow programmable shower options and monitor water usage to encourage responsible and sustainable use.

W+W. Integrating the washbasin and toilet into a single piece, this internationally acclaimed design reuses water from the washbasin to flush the toilet.

Certificates. Many of our products are made from FSC®-certified wood.

Our water-using products carry the Unified Water Label water efficiency labelling system to help consumers understand the water and energy use in these products.

Technologies

Cold Start. Cold Start technology prevents unnecessary boiler activation by defaulting to a cold water start position. This innovation saves energy and reduces emissions released into the atmosphere.

Aerators. Faucet spouts with aerators that mix air with water help to reduce the flow rate while maintaining the same functionality and comfort.

Thermostatic faucets and fittings. Quick Reaction® technology delivers desired temperatures rapidly and an eco-stop button contribute to water conservation in showers.

Materials

Stonex®. An improved formula for Stonex® baths uses recycled PET bottles, reducing the carbon footprint by up to 25%.

Supralit®. Supralit® seats are made from 47% recycled plant-based materials helping to reduce the environmental impact.

Initiatives

Pioneering sustainable ceramics
Our recent partnership with Keramischer Ofenbau marks a significant step towards sustainability as we launched the world's first electric tunnel kiln for the production of sanitaryware. This pioneering initiative positions us as a global leader in the operation of a net-zero sanitaryware manufacturing facility, setting a new standard for the industry. Through collaboration and innovative technology, we aim to lead the way to a sustainable future for the ceramics industry.

We Are Water

For over a decade, the We Are Water Foundation has promoted global hygiene and sustainable water management, improving access to clean water and sanitation in disadvantaged regions while raising awareness and providing training.

Commitment

Sustainable and Ethical Commitment
Roca Group is committed to implementing responsible business practices that prioritise environmental protection, social responsibility and ethical behaviour.

EcoVadis Gold Medal
recognises Roca Group's outstanding sustainability performance.

As a proud member of the **United Nations Global Compact**, sustainability forms an integral part of our commitment and we work in line with the targets of the **Sustainable Development Goals**.

* Data from 2018-2023
** Data from 2023

In 2024, Roca is an official sponsor of Alinghi Red Bull Racing for the 37th America's Cup in Barcelona. This initiative is part of the company's ongoing mission to work with leading companies that share its commitment to excellence, design, innovation and sustainability.
