# Milli starts and ends with a story.

Inspired by exploration and a need to understand the world of enduring style and design, Milli is a mindset we share with you.

Milli is a rare curation of the best thinking the world has to offer — interpreted and designed for our unique market. Each range tells a story that represents our passion for creating elevated experiences at every touchpoint. From new technologies that pique curiosity, to graceful silhouettes that honour the past, Milli has a place in every style conscious home.

This mindset compels us to immerse ourselves in the narrative behind lasting movements and recurring trends. It leads us on journeys around the globe to unearth the ideas behind transformative beauty. It nurtures collaboration with leading designers and is a contemplation on the craft and character of modern tapware.

Welcome to the world of Milli.

# Etch

Beauty etched  
in detail.

With bold industrial influences and an ode to artisan craftsmanship, Milli Etch delivers *unparalleled sophistication*. Taking cues from luxury European watchmaking and fine jewelry, raw tactility is brought to life through *stark lines* and *milled precision* - inviting touch at every turn.

Forging the best of Australian design heritage with meticulous attention to detail, this collection brings sophistication and beauty to the forefront.

Refined  
Industrialism.

Sleek industrial design with slim lines and *tactile knurled detailing* for a modern, refined look.

# Trace

Elevated design grounded in natural form.

Trace focuses intently on form. Timeless, simple and guided by the *natural world*, it's locally inspired design reflects its environment.

Meticulous construction sees its *gentle arcs* seamlessly melt into one another. Circles and squares combine and float organically, with a gentle presence that holds its own without intruding.

In addition to possessing enduring style, Trace's *versatility* makes it a smart and elegant choice for accessorising and completing any bathroom look. This extends into its ease of use, with its refined *soft-square style* uncomplicating the full experience.

The natural choice. **Trace.**

03

# Zato

When considering craftsmanship in any context, it's impossible not to be inspired by Italian design.

RENAISSANCE ART  
EG STATUE OF DAVID

Finely sculptured to lightly soften edges, Zato is *tactile in nature and approachable*, making interactions warm. It is perfectly styled and constructed for everyday use, being a welcoming focal point for an on-the-go lifestyle.

Referencing the meticulous *flow of marble sculptures* and the Italian way of refining performance, form, function and lasting fashion help place versatility at the centre of its allure.

If it's *cutting edge Milan* you're channelling, Zato presents itself perfectly. Most importantly, its design heritage means it possesses the open mindedness of the Italian masters.

This is your blank canvas. Approach it with style.

PERFORMANCE

DIVE INTO THE ARCHIVE OF ITALIAN DESIGN

Make it enduring.  
Make it **Zato**.

# Voir

Inspired by the Eiffel Tower.

One Milli range that takes us further around the globe than any other is Voir. Infused in its *French provincial* roots is a passion for preservation, heritage, and ornate design. But, like any enduring trend, its application is not limited to the traditional.

Our homes are among the best examples of upholding *period architecture and design*, yet not compromising on the freshness of modernity. With its range of contemporary finishes, Voir curates the best of classical and modern thinking to flex between time.

Subtle design motifs sampled from the *Eiffel Tower* allow lovers of the old world to elevate their new or renovated abodes. Lever and cross handles, paired with arched spouts are key to the range's appeal.

Look to the past to liven up the present. **Voir.**

# Inox

Durability in design  
for life outdoors.

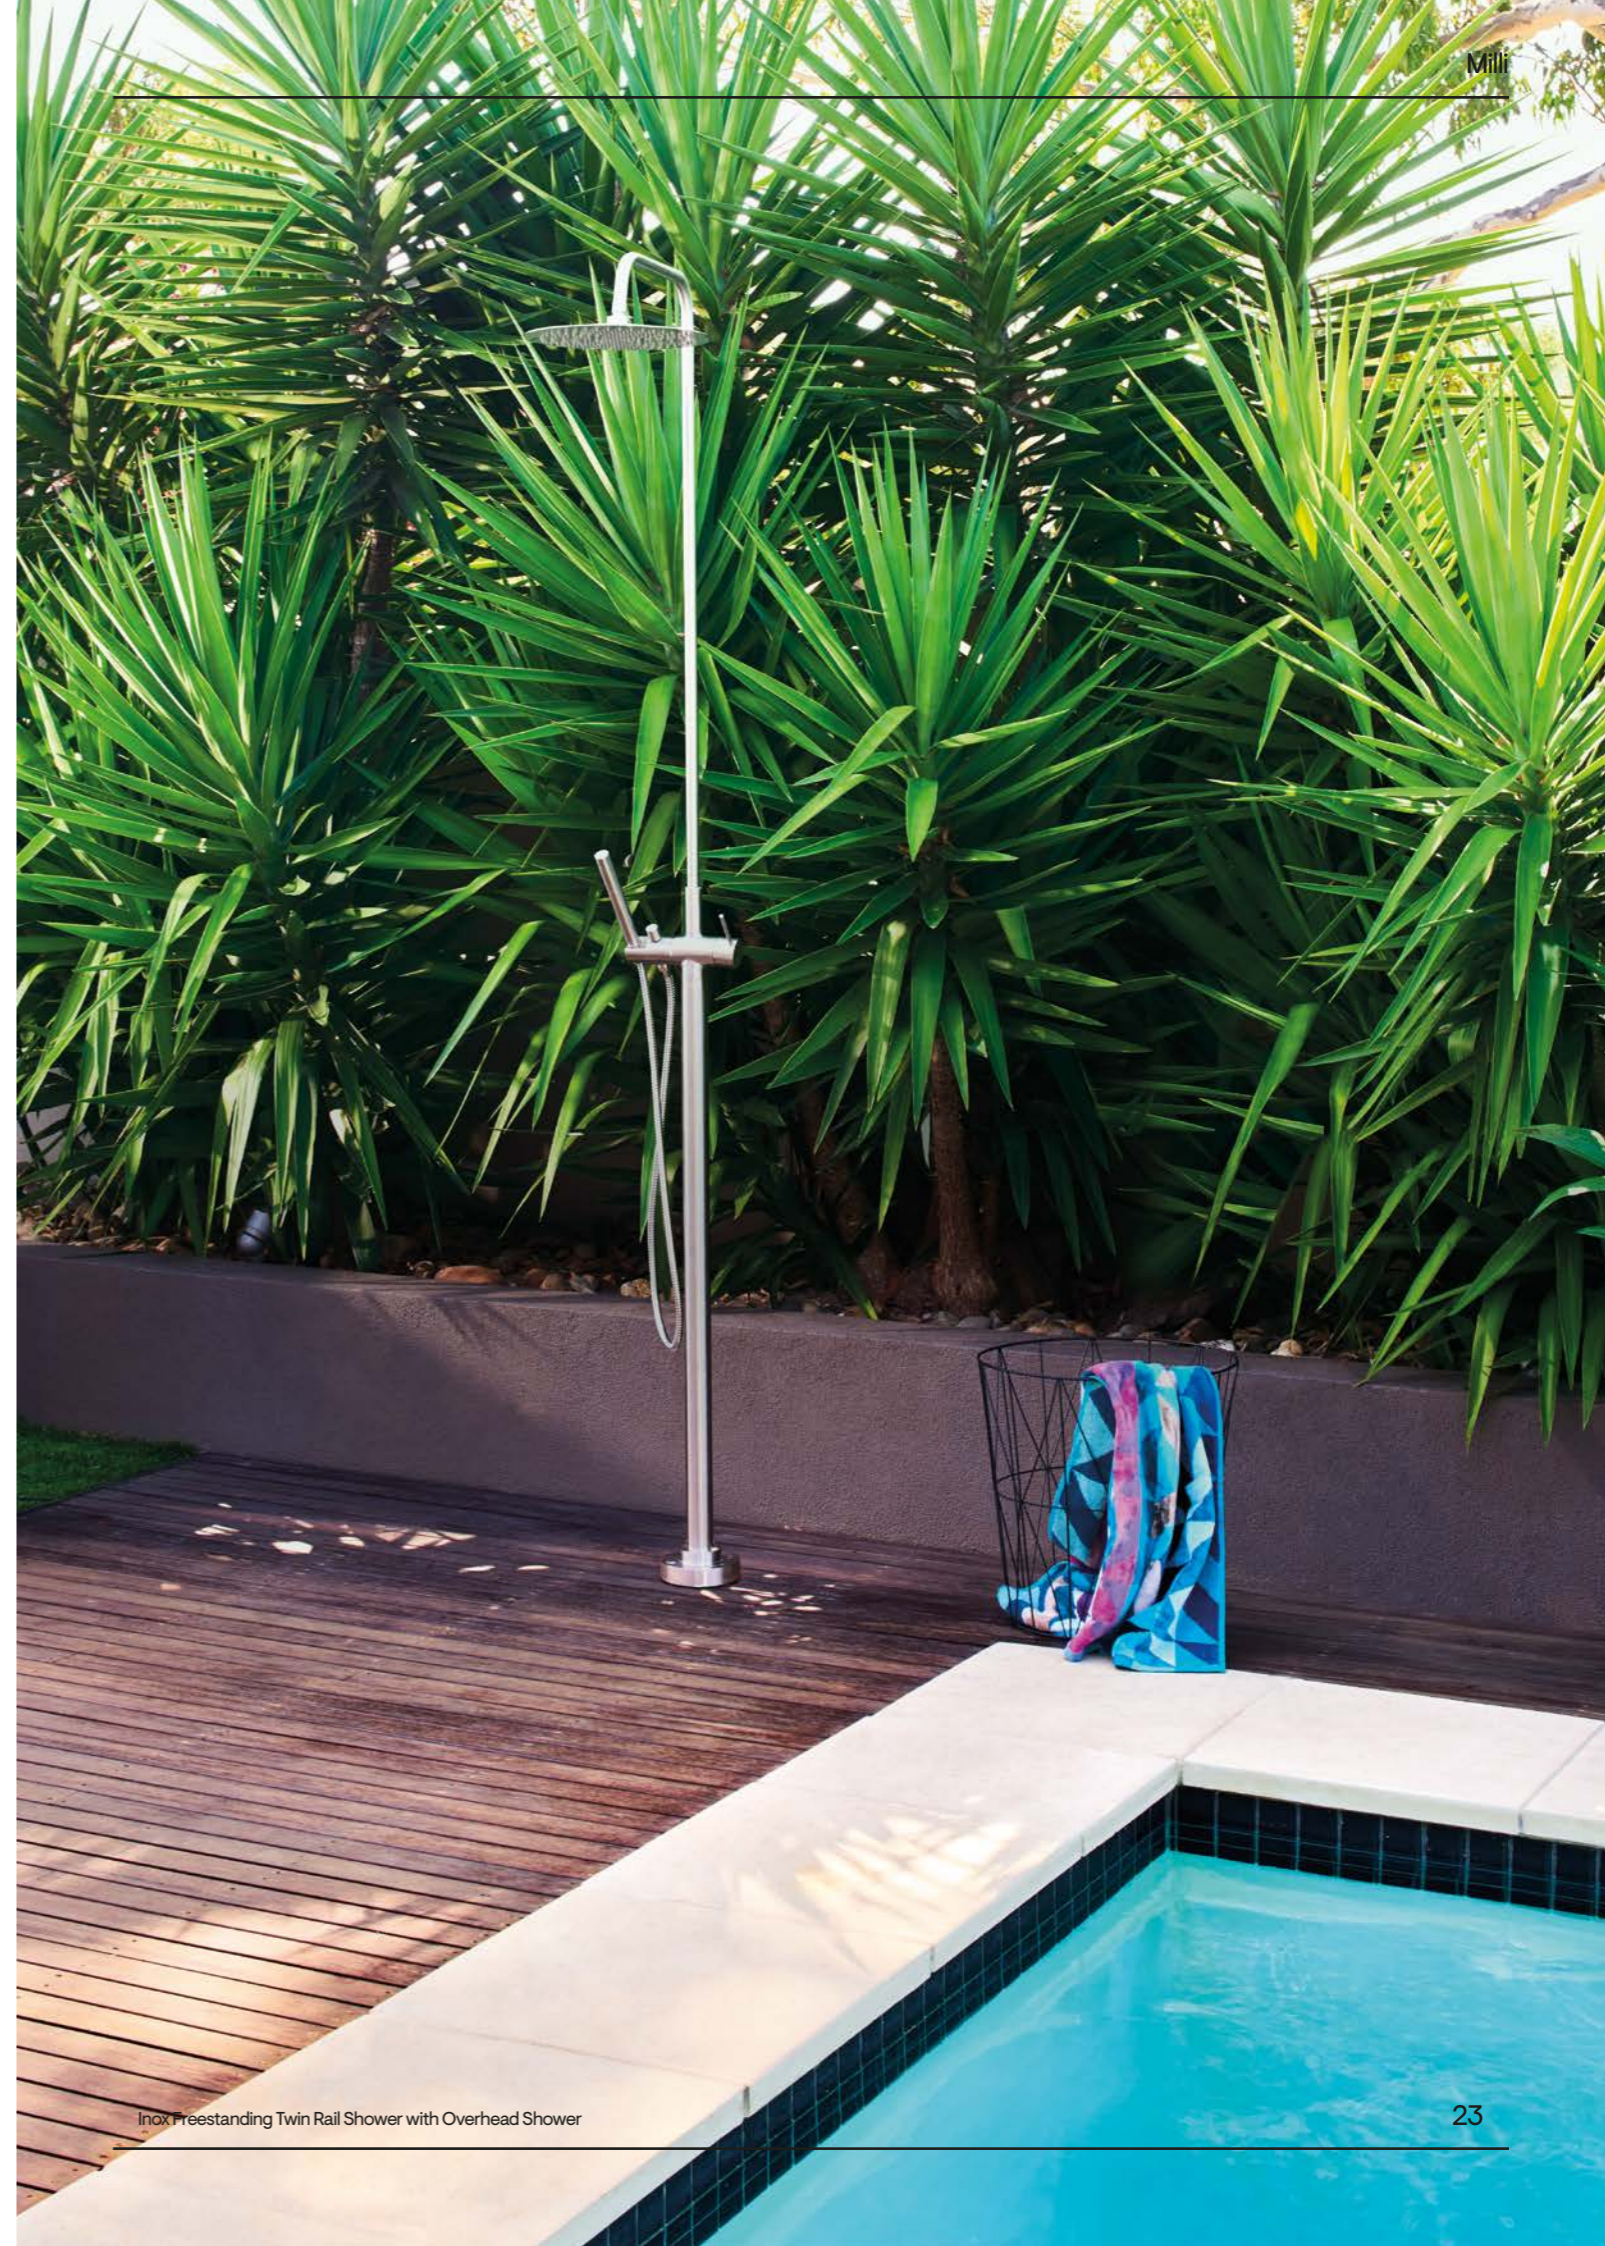

More than anywhere in the world, we love to create joy outside. We draw energy from our surroundings, making entertaining in the sun a religion. Taking creative cues from the native landscape, Inox melds together the grace of bathroom design with the *durability of marine architecture*, compounding in a contemporary open air display.

Good design is about form following function. When it comes to Inox, whose long slender lines and towering heights mimic our *native flora*, there could not be a better example of this principle coming to life.

Curated style for the open air. **Inox.**

Inox is designed to be exposed to the elements of the *harshest climates* in the world. Salt, sun, wind and rain, it stands to attention against all. Each component is made from *316 marine grade stainless steel*. Hearty like our landscapes and uncompromising on charm, Inox is the most durable range in our market.

Inox Freestanding Twin Rail Shower with Overhead Shower
