

## Features & Benefits

- Advanced wrap around microchannel heating technology for uniform and faster water heating
- Suitable for harsh water and cold climates with an operating range from -5°C to 43°C <sup>6,7</sup>
- · High recovery rate
- · 2.4kW back-up element
- · User-friendly touch screen LED display
- Eligible for Government Incentives
- 7 year cylinder warranty<sup>1</sup>

| MODEL                         | 551270                         |
|-------------------------------|--------------------------------|
| Storage Capacity (L)          | 270                            |
| Element Rating (kW)           | 2.4                            |
| Relief Valve Pressure (kPa)   | 1000                           |
| Expansion Control Valve (kPa) | 850                            |
| Max Water Supply Pressure:    |                                |
| with ECV (kPa)                | 680                            |
| without ECV (kPa)             | 800                            |
| Water Connections             | Rp <sup>3</sup> / <sub>4</sub> |
| Approx. Weight (Empty) kg     | 135                            |

## Conditions apply:

- See the Rheem warranty in the product's Owner's Guide or view product warranties at www.rheem.com.au/warranty
- <sup>2</sup> Up to 42% lighter than comparable Rheem vitreous enamel water heater models of the same capacity.
- <sup>3</sup> 60°C and higher temperature models and some applications require a tempering valve in accordance with AS 3500.4.
- <sup>4</sup> Frost protection to 400m altitude above sea level
- <sup>5</sup> Eligibility criteria apply.
- <sup>6</sup>The specified -5°C to 43°C temperature range is the operational range of the heat pump. The electric element activates when the ambient air temperature is outside this range and heating of the water is required.
- Warranty limits regarding water chemistry. Harsh water regions the Rheem warranty may not apply if the water heater is connected to a water supply which has a Total Dissolved Solids content >2500mg/L; is scaling with a Saturation Index >+0.8, or; is corrosive with a Saturation Index <-1.0.</p>
