4.07.1

A premium designed wall faced back inlet pan with partial box rim delivering a 4.5/3 litre dual flush. The pan connection system includes the patented Caroma Uni-Orbital® connector that extends to any position in a 25mm radius, unlike traditional connectors that only move backwards and forwards. The setout range is from 60mm – 170mm with a recommended setout of 90mm. The combination of smooth sides and concealed plumbing fittings with the wall faced concept provides for optimum ease of cleaning and low cost maintenance enhanced by the rim design which maximises the washed area of the bowl.
