Pool selection guide

Here's how to select the right products for your pool

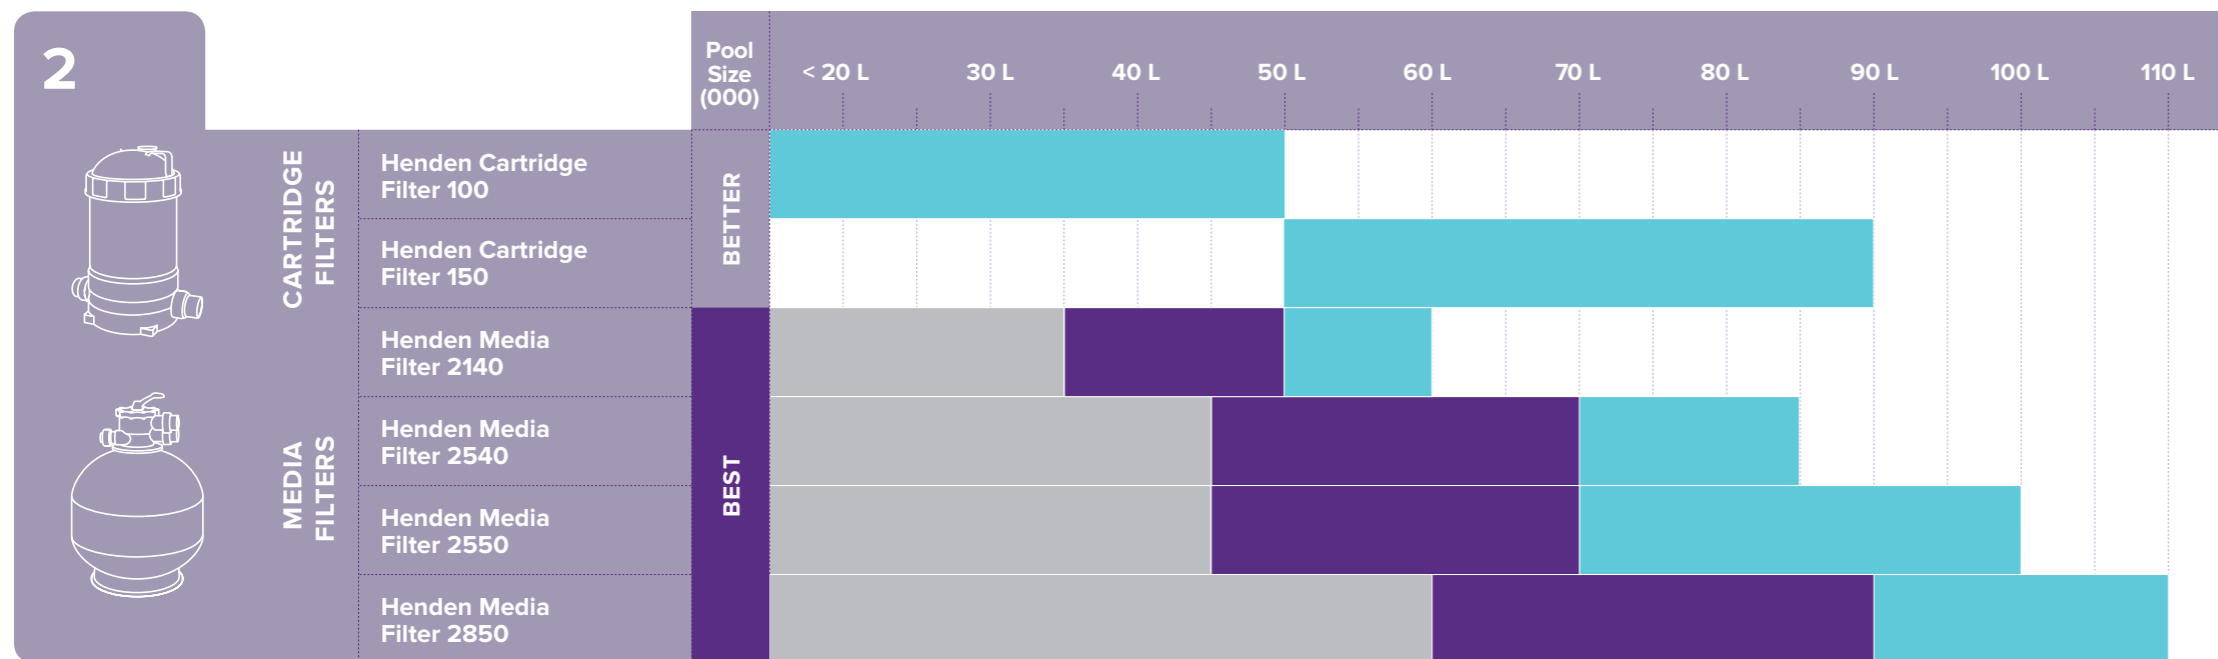

Also available in the Henden range

*Calculated at pump Best Efficiency Point (BEP)

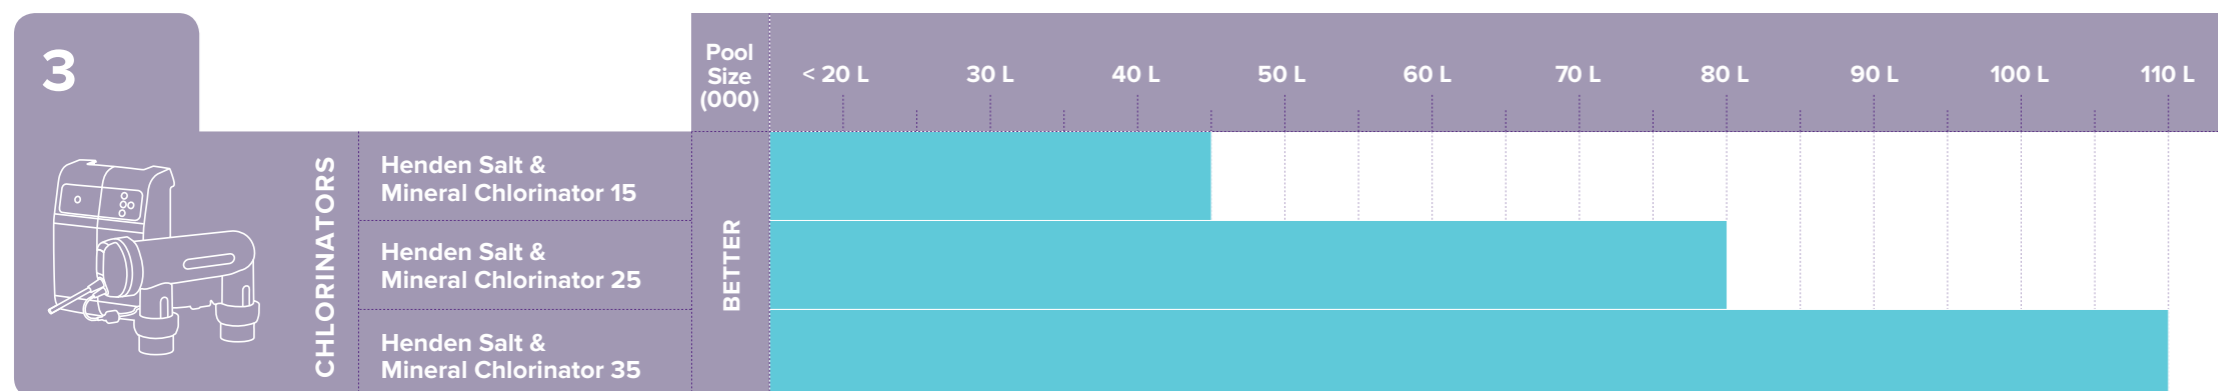

HEAT PUMP

Use your pool all year round with a Henden heat pump. One of the industries' best performers, speak with our staff about our range of swimming pool heat pumps 16kW, 23kW, 28kW & 35kW to select the appropriate one for your needs.

PH CONTROLLER

Also available is our pH Dosing Pump (HPHDB), that automatically doses and maintains safe pH acid levels in your pool. Easy to install – plug and play.

MINERALS & FILTER MEDIA

We also have a complete range of mineral salts, sand and media filter supplies. Ask in store for more details.

6 hour run time | 4-6 hour run time | Below 4 hours run time
