

CLIC® R CLAMPS

MADE IN FRANCE

CLIC® R screwless one-piece clamps offer the perfect solution for simple assembly and installation on hoses and tubes.

FEATURES

- Excellent, even clamping force distribution prevents flat spots - ensuring a leak proof seal
- Resistant to high stresses from pressure, pull off and vibration
- Sizes to suit all popular LDPE Poly and Drip Tube sizes.

CLIC® R's unique locking system results in no twist or off centre assembly

Rolled band edges protect hose and tubes from pinching and damage

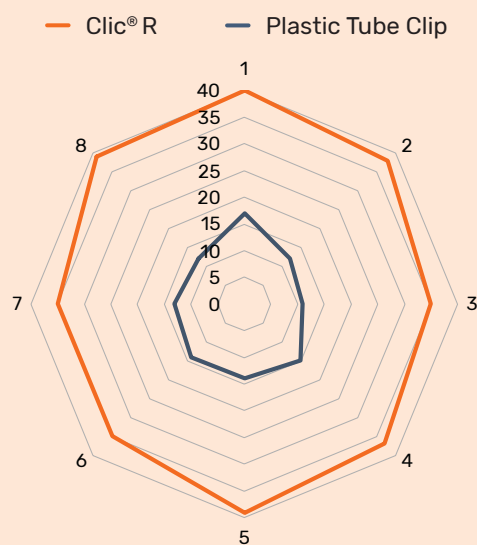

Built in compensation loops provide elasticity to expand and contract without losing tightness

Manufactured from AISI 304 stainless steel

Size stamped and colour coded for easy identification

Clamping Load (daN) CLIC® R vs Plastic Tube Clip

Force distribution comparison between CLIC® R clamps vs Plastic (ratchet type) tube clips.

CLIC® R provides high clamping force and even distribution load measured across 8 segments.

CLIC® R CLAMPS
