- Manufactured from grade 304 or 316 stainless steel

about

The *BRITEX In Wall Tundish* is manufactured from 1.2mm satin finish stainless steel and comes complete with a removable inspection window allowing for visibility to detect blockages and ensure ease of cleaning. It is primarily used as a discharge point in refrigeration and air conditioning wastes for conditioning wastes for condensation and waste water. The In Wall Tundish is commonly used in hospitals, apartment buildings, medical centres and aged care facilities.
