Product Technical Data Sheet

Product Code:	AD140930A
Color Name:	FR Additive
Carrier:	LDPE
Addition Rate:	as required

Description: This Masterbatch is based on LDPE resin as carrier , It contains brominated flame retardant additive and antimony trioxide. It is suitable for the flame retardant application of Injection Moulded , Extruded and Roto moulded Polyolefins products. The flame retardant efficiency will depend on addition rate of this Masterbatch and moulded product, so trial should be done to test its suitability for flame retardant requirement .

Properties:

Granules:	Die face cut (Ø 3mm Approx)
Additives:	>=70%
Heat Stability:	up to 260°C (pigments only)
Light Fastness:	N/A (Blue Wool Scale)
Food Contact:	No (AS2070-1999)

Packaging: The Masterbatch is normally supplied in 15kg polyethylene bags

RoHS and REACH Compliance: This product conforms to RoHS and REACH requirement
