

Solenoid Valves

Emerson

M36 Series

The M36 Series are 3 way solenoid valves, typically used for heat reclaim applications.

Cat. No.	Model No.	Part No.	Connection ODF	Nominal Capacity kW					
				R134a	R22	R404A R507	R448A	R449A	R452A
2711309	M36-118	801421	1½"	28.9	35.1	31.3	31.3	31.3	31.3

Note: Valves are supplied less coil (240V coil to suit: Cat. No. 2711311 & J/Box Cat. No. 2711275).
Nominal Capacities based on: 4°C evaporating temperature, 38°C condensing temperature, 15kPa pressure drop between valve inlet and outlet.
