2 b

Hard Wiring Installation

- Trim the power cable to required length.
- Unscrew Phillips Headed Screws to remove Open End Cap.
- Compress Rubber Protector into the tube to remove it from the towel ladder.
- Run the cable through the cable hole on the towel ladder, Rubber Protector and the cable access hole on the Bracket Assembly B.
- Fit Rubber Protector back in place.
- Screw on M5 Hex Screw to secure Bracket Assembly B into position.
- Push on Closed End Cap and fasten Phillips Headed Screw.

3

- Recommended minimum installation height is 600mm from floor.
- Measure and mark centre lines.
- Place a Mounting Plate over centre lines and mark hole positions.
- Use 6mm drill bit to drill two holes on the wall.
- Push appropriate Wall Plug into drilled holes and fasten Mounting Plate with Wall Screw.

4

- Attach Mounting Plate to the towel ladder temporarily.
- Push the towel ladder over Fixed Mounting Plate.
- Mark hole positions required for installing other Mounting Plates.
- Remove Mounting Plate from the towel ladder once hole positions are marked.

5

- Use 6mm Drill bit to drill holes in the marked positions.
- For Hard Wiring : Run power cable through Mounting Plate prior to installing Mounting Plate.
- Fit Wall Plug in place and fix Mounting Plate with Wall Screws.
- Attach Dress Cover over Mounting Plate.
- Fit the towel ladder into position and fasten Grub Screw to secure.
