Lux Back To Wall Freestanding Bath With Overflow 1700x750x580

Pre-Installation Check

Please unwrap the bath and check carefully to ensure it has not been damaged in handling or transport. Installation of damaged or defective bath will be deemed as acceptance and no claim will be accepted after installation. Ensure bath is well protected before, during and after installation.

Assemble bath on mat to protect against damage to bath surface.

Bath must be installed to the requirements of AS/NZS 3500 by a qualified plumber and in accordance to the National Construction Code.

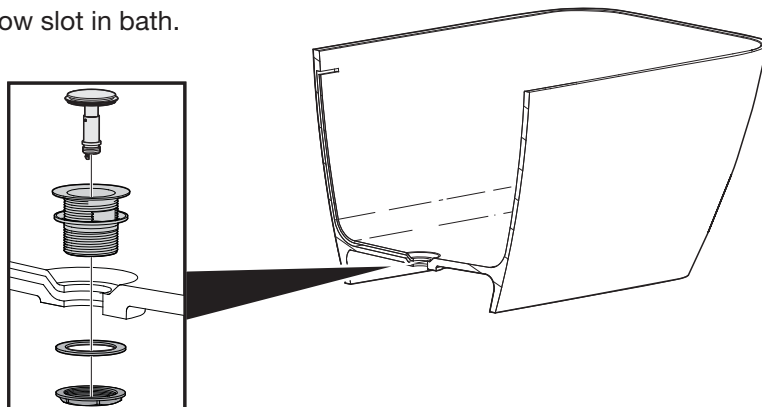

There are various methods of installation and will depend on site condition type of bath and available access to plumbing /drainage. This installation guide does not include details of waste fitment to main waste connection. The final decision about installation of the waste connection and cutout allowance in the floor for connection should be taken by a suitably qualified person.
