## INSTALLATION INSTRUCTIONS

Note: If wall mounted tapware is to be used, consideration should be made to length of outlet and positioning of basin on bench top. If tapware is to be bench mounted allow suitable bench top width for fitting tapware.

1. Prepare the area where the basin is to be positioned for installation.
2. Cutout the required position of the basin by using the template provided.

3. Make all connections to basin and test thoroughly for water drainage and leakage. If no leakages are present, seal basin to countertop.

Please note: image is an example only, tapware may be wall mounted.
