

# Fast, Efficient & Hygienic – German Made Hand Dryers

- › Advanced drying technology that can save your business valuable time and money

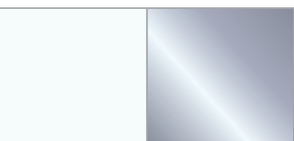

# Ultronic

**FAST, POWERFUL, UNIQUE**

As a high speed hand dryer, the Ultronic is particularly suited to well frequented areas. With its strong and highly concentrated air stream – over 300 km/h – it can dry hands in less than 15 seconds.

## No time to waste

The shortened drying time, low connected load and demand-dependent control via infrared proximity sensor ensure top levels of energy efficiency.

## Timelessly elegant

The advanced and prize winning diecast aluminium casing is available in a white finish. A brushed stainless steel version is available for upmarket applications.

## Benefits for your business

- › Extremely short drying time of less than 15 seconds
- › Elegant, classic design blends in harmoniously with any interior
- › Curved casing prevents items being placed on the unit
- › Energy efficient and environmentally responsible
- › Contactless, hygienic operation
- › Made in Germany

## AFFORDABLE TO BUY – QUIET TO OPERATE

The HTE range of hand dryers are particularly quiet in operation, making them suitable for areas where loud noise would be disruptive. The infrared proximity sensor enables economical, contactless operation. The appliance only switches on when hands are placed 6 to 12 cm under the air outlet.

### Outstanding design – elegant and clever

The innovative design is elegant and together with the robust casing protects against damage. The curved design casing prevents items from being placed on hand dryer.

## Benefits for your business

- › Exceptionally quiet – only 54 dB
- › Curved design prevents items from being placed on hand dryer
- › Hygienic and energy efficient through IR proximity electronics
- › Low operating costs
- › Maintenance free, reliable operation
- › Easy installation
- › HTE 4 in an impact and UV-resistant plastic casing.
- › HTE 5 in a particularly robust diecast aluminium casing
