Hard Rain

Crafted with Swiss precision, Nikles is intensely focused on the development of innovative showerheads and sprays that allow you to lose yourself in the moment.

From a powerful massage spray to a gentle uplifting spray, Nikles have perfected the delivery of life's most precious element – so you can feel free every day.

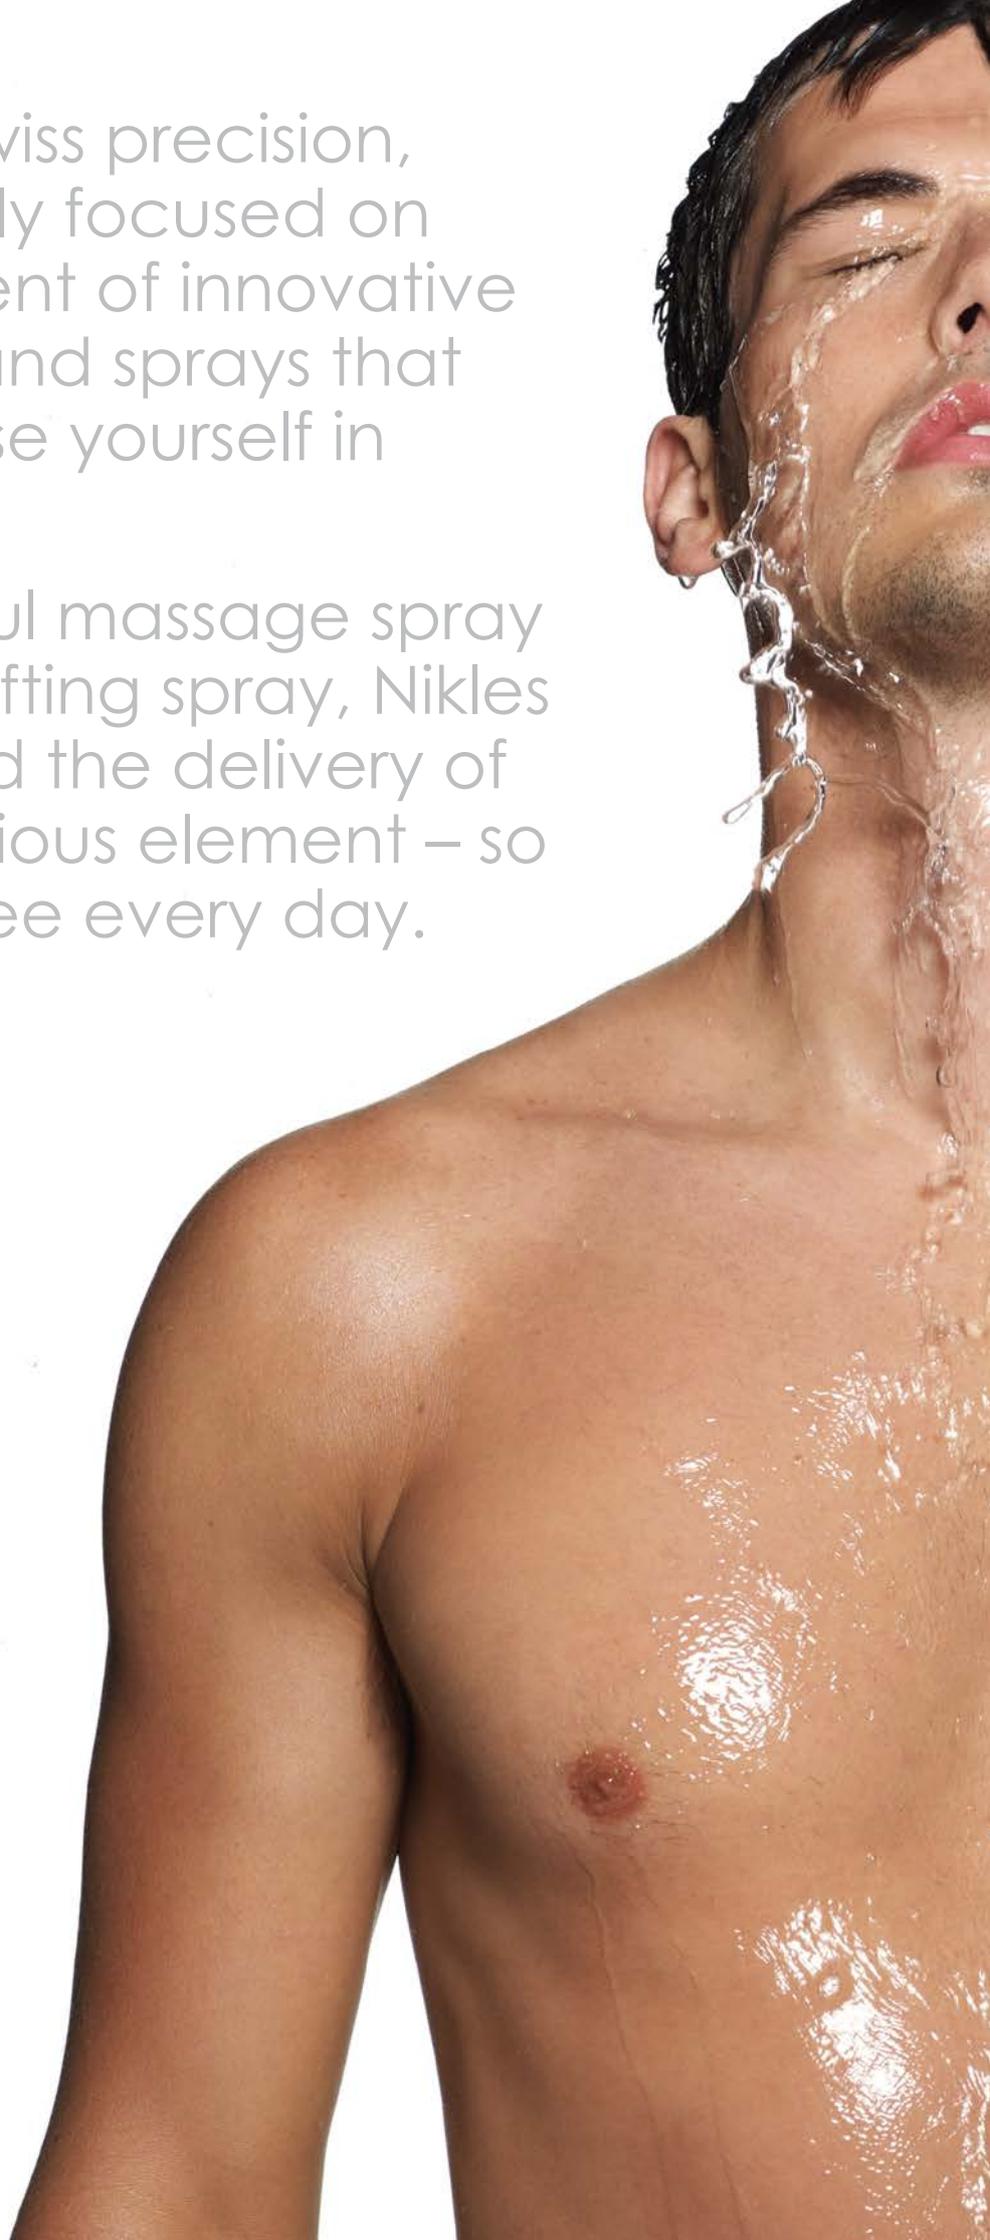

SWISS PRECISION

Product Quality Guarantee

Nikles showers enjoy a 15 year product guarantee. For full warranty details visit reece.co.nz

Turbine

Shower Booster Technology

The revolutionary patented Turbine Technology by Nikles uses a turbine wheel within the shower head that increases water pressure for a powerful, massaging shower spray that can exhilarate the body and awaken the senses. The tapered design of the nozzles adds extra spin to each water stream, creating the sensation of a full shower regardless of the water pressure.

Airdrop

Gentle Shower Technology

Nikles Airdrop® technology is a patented technology that enriches every drop of water with pockets of air, creating a gentle, uplifting feeling that envelops the body. Airdrop® is a unique air injection process that simultaneously combines water and air in a series of mixing chambers, before delivering a rejuvenating spray that is soft and gentle on the skin. The highly compact engine allows for the design of ultra slim shower heads and hand showers.
