- Includes:**  
Shower outlet elbow, 1/2" male thread with round escutcheon protected against backflow

Installation instructions

**PLEASE NOTE-** Requires female thread in wall for male thread installation wall elbow

**Installation Instructions**

This shower is suitable for use with high pressure water applications. Using this product in conjunction with gravity-fed water heaters, low and unequal pressure supply systems, tempering valves & thermostatic mixing valves may result in unsatisfactory performance.

**Suitable for High Pressure applications 150kPa – 500kPa**

Care must be taken by the installing tradesperson to ensure connecting threads do not damage the flow controller when installing this product.

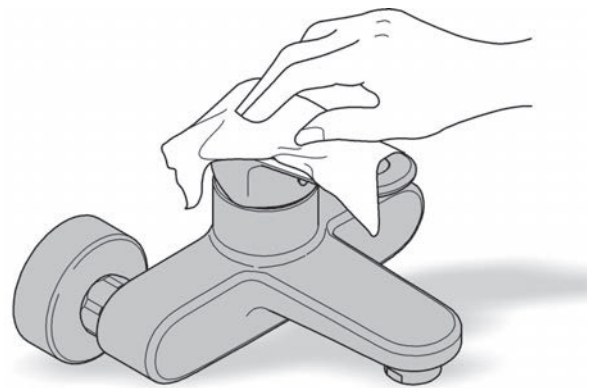

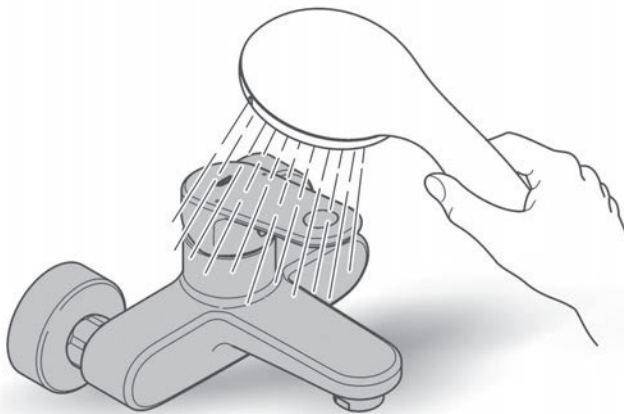

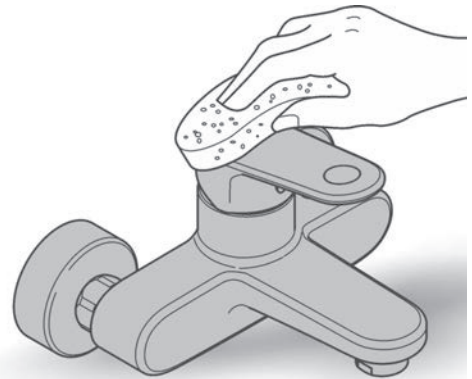

The installation tradesperson must ensure they install this product in accordance with AS/NZS 3500 and all other relating AS/NZS regulations that apply to the installation of this product.

**Maximum static pressure of 500kPa.**

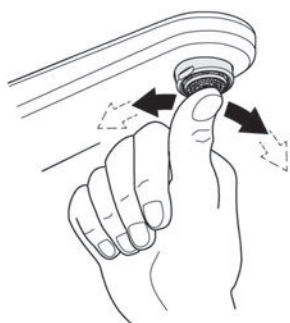

For applications where 500kPa static pressure is exceeded, a suitably certified pressure limiting valve must be installed to prevent high pressure damaging this product.
