# Milli starts and ends with a story.

Inspired by exploration and a need to understand the world of enduring style and design, Milli is a mindset we share with you.

Milli is a rare curation of the best thinking the world has to offer — interpreted and designed for our unique market. Each range tells a story that represents our passion for creating elevated experiences at every touchpoint. From new technologies that pique curiosity, to graceful silhouettes that honour the past, Milli has a place in every style conscious home.

This mindset compels us to immerse ourselves in the narrative behind lasting movements and recurring trends. It leads us on journeys around the globe to unearth the ideas behind transformative beauty. It nurtures collaboration with leading designers and is a contemplation on the craft and character of modern tapware.

Welcome to the world of Milli.

# Oria

Local design with a European mindset.

If you have a passion for creating uniquely beautiful interior environments, you would often be contemplating European design. But the story of Oria starts in Australia, and is a proud example of Oceania rich design capability that stands out on a global stage.

Oria is a bathroom showpiece. The peak of *architectural influence*, it encapsulates the beauty and meticulous engineering of the metalwork seen in city structures around Europe. From brass archways that decorate ceilings, to silver spires that pierce the sky, the methodical approach taken to fuse old and new is captured in its striking silhouette.

Understated bathroom beauty.  
**Oria.**

A need to preserve our own heritage is encapsulated in Oria's very materials: a classic tap design at its heart, full of all the *modern influence* of today.

Cleverly *crafted in Melbourne*, Oria is focused on the user. Ergonomic and clean cut, its sturdiness is elevated by its unrivalled construction, structure and integrity.

# 01 Oria

## A stronger finish

Milli Oria’s PVD finishes are produced in *Melbourne*, delivering sophisticated and durable coloured surfaces. With complete control over the process, Oria’s PVD ensures perfect colour and tone, every time.

Creating a hardened surface that is resistant to scratching, tarnishing, abrasion and discolouration, Oria PVD sets the *benchmark in coloured finishes*.

AVAILABLE IN  
6 x COLOURS

## About PVD

Physical Vapour Disposition (PVD) is the process where coloured metals are vaporized at high temperatures in a vacuum sealed chamber, fusing with the tap itself. This technique is a contamination free finishing process that is *sustainable, environmentally friendly and luxurious to touch*.

# Pure

Beautifully raw  
in form.

When we search for lasting design and style trends, it's often the 'where' that becomes the focus of our attention. However, for the *Australian made* Pure range of tapware, its rich narrative is underpinned by how it has been crafted, and what has gone into its construction.

Stripped back to its raw form, Pure is a study of the *minimalist* mindset — inside and out.

Made clear by its striking *circular-dial construction*, it's embedded with a sense of the infinite; of simplicity and regeneration; of a full-circle approach to creating a beautiful space.

Premium *recycled materials*, such as brass, are sourced locally. Forged together in cutting edge fashion, a no-waste, handcrafted approach is taken to imagining a tapware range that is unique within bathroom design, eco-friendly and tactile.

Simplicity is a concept that summarises each aspect of the Pure range. *Made in Melbourne*, its construction fuses innovation in manufacturing and a progressive mindset, with sustainability and ingenuity steering its understated, minimalist finish.

Infinitely Australian. **Pure.**

# Pure customisation

*With Pure, the possibilities are endless.*

Adding personal flair to your chosen tapware is a crowning moment in creating your beautiful bathroom. Like any rewarding design process, the final stages allow your unique vision to truly flourish. Pure’s extensive range of finishes and textures present you with the perfect opportunity to do just that.

## Step one

*Choose your finish*

Staying true to Pure’s minimalist direction, six striking finishes allow for adventurous contrasting or understated hues to shine.

## Step two

*Choose your texture*

Designed to contrast and crafted to endure, Pure’s textures add unique detail and enhanced tactility to its simple form.

# Etch

Beauty etched  
in detail.

With bold industrial influences and an ode to artisan craftsmanship, Milli Etch delivers *unparalleled sophistication*. Taking cues from luxury European watchmaking and fine jewelry, raw tactility is brought to life through *stark lines* and *milled precision* - inviting touch at every turn.

Forging the best of Australian design heritage with meticulous attention to detail, this collection brings sophistication and beauty to the forefront.

Refined  
Industrialism.

Sleek industrial design with slim lines and *tactile knurled detailing* for a modern, refined look.

# Trace

Elevated design  
grounded in  
natural form.

Trace focuses intently on form. Timeless, simple and guided by the *natural world*, it's locally inspired design reflects its environment.

Meticulous construction sees its *gentle arcs* seamlessly melt into one another. Circles and squares combine and float organically, with a gentle presence that holds its own without intruding.

In addition to possessing enduring style, Trace's *versatility* makes it a smart and elegant choice for accessorising and completing any bathroom look. This extends into its ease of use, with its refined *soft-square style* uncomplicating the full experience.

The natural  
choice. **Trace.**

# Inox

Durability in design  
for life outdoors.

More than anywhere in the world, we love to create joy outside. We draw energy from our surroundings, making entertaining in the sun a religion. Taking creative cues from the native landscape, Inox melds together the grace of bathroom design with the *durability of marine architecture*, compounding in a contemporary open air display.

Good design is about form following function. When it comes to Inox, whose long slender lines and towering heights mimic our *native flora*, there could not be a better example of this principle coming to life.

Curated style for the open air. **Inox.**

Inox is designed to be exposed to the elements of the *harshest climates* in the world. Salt, sun, wind and rain, it stands to attention against all. Each component is made from *316 marine grade stainless steel*. Hearty like our landscapes and uncompromising on charm, Inox is the most durable range in our market.
