

ROTHENBERGER PLIERS BEST TOOLS FOR PROFESSIONALS

EASYGRIP automatic strap wrench for plastic pipes

APPLICATIONS:
Secure, gentle gripping of
chrome-plated fittings and pipes.

Secure grip:
Non-slip nylon strap

Gentle:
Centred prismatic support ensures
that the pipe surface remains
undamaged during socket fitting

Easy action:
Indispensable aid when socket fitting
plastic pipes with a large diameter

Chain pipe wrench HEAVY DUTY

APPLICATIONS:
Secure gripping and rotating of
pipes in confined locations. Double-
sided teeth enable working in both
directions without repositioning.

Robust:
Special tempered steel and a sturdy
design make this tool ideal for pipework

Ease of movement:
Double-sided teeth with clockwise/anti-
clockwise action enable working in both
directions without repositioning

Durable:
Easily replaceable jaws

One-handed pipe wrench HEAVY DUTY

APPLICATIONS:
One-handed working on pipes
and control elements used during
pipe installation (e.g. sockets and
union nuts).

Durability:
Wear parts such as jaws and
hooks are replaceable and
guarantee a long service life

Secure grip:
Self-locking wrench with a spring-
loaded hook for secure pipe gripping

Easy action:
Rapid setting of pipe diameter
using scale on hook

One-handed pipe wrench ALDUR

APPLICATIONS:
One-handed working on pipes and control
elements used during pipe installation
(e.g. sockets and union nuts).

Weight saving:
Approx. 40% lighter than steel
version, greatly facilitating work

Durability:
Wear parts such as jaws and hooks
are replaceable and guarantee
a long service life

Secure grip:
Self-locking wrench with a spring-
loaded hook for secure pipe gripping

NEW

ROFAST pliers wrench

APPLICATIONS:
For gripping, holding, clenching
and bending of chrome-plated fittings
with delicate surfaces.

Convenient handling:
Excellent pressing and clamping
force with 10x force transfer for
high gripping power

Gentle to surfaces:
Smooth, parallel jaws enable
use on delicate surfaces

Versatile:
Replaces spanner sets from 0 mm
to 50 mm and dispenses with
use of other tools

NEW

Water pump pliers ROGRIP M / ROGRIP F

APPLICATIONS:
For gripping pipes, sockets, different
screw and nut types and flat material.

Durable:
Due to double hardening, the teeth
are particularly wear-resistant.
This allows longer use of the pliers
of the ROGRIP family

Slip-resistant:
The shape of the teeth (self-locking),
the 3-touchpoint grip (pipe contact at
three points) on the pipe and the soft-
touch handle, prevent slipping off
the pliers. You always have a secure
grip on the pipe

Large gripping capacity:
The rounded shape, called
ROTHENBERGER Curve Shape Design,
provides a higher gripping capacity
than standard water pump pliers have
to offer: 7" ROGRIP pliers grip like 10"
standard water pump pliers. You can
use the ROGRIPs for a wider range of
applications

Corner Pipe Wrench

APPLICATIONS:
For working on pipes and control
elements used during pipe installation
(e.g. sockets and union nuts).

Self-locking:
3-point clamping through firm
gripping and holding prevents
slipping, even on smooth pipes

Gentle to surfaces:
Fixation through firmly connected
adjusting nut facilitates rapid
adjusting on pipe

Versatile:
Teeth configuration counter to
the direction of rotation ensures
non-slip gripping

NEW

Electrical pliers ^{1000 V} IEC 60900

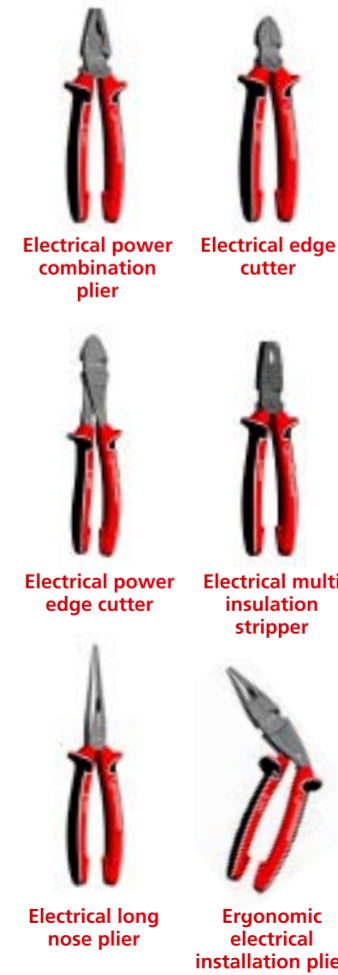

Certified pursuant to DIN EN/IEC
60900 Tools tested up to 10,000 V
and protected up to 1000 V

APPLICATIONS:
For working on electronic
components, particularly
gripping, positioning
and cutting.

Durability:
Induction hardened wire cutter
and completely forged steel jaws
for a longer service life.
Manufactured with oil-hardened
tool steel

Low-fatigue working:
Facilitated through optimum
force leverage

Ergonomic handles:
High-quality plastic ensures
a secure grip
