

Bridgland Mastic Standard

SPECIFICATIONS

Average Density	1.39 kg/L
Flash Point	>180°C
Application Temperature	0 to +70°C
Maximum Temperature	+75°C
Volume Per Block*	
*Note: that the quantity of mastic required is applicator dependent. Confirmatory trials should be conducted where possible to determine requirements.	
Product Packaging	Weight: 3kg Units: Block Carton Qty: 6 Blocks/Carton

Product Description

Bridgland Mastic ST is based upon petrolatum compounds and blended inert fillers.

Product Characteristics

- Bridgland Mastic ST is formulated for stability and plasticity over a wide temperature range.
- Bridgland Mastic ST will profile crevices and sharp angular profile changes enabling Bridgland Tape to be applied without bridging or voiding.

Product Uses

Pipeline: For profiling around pipe joints, flanges, fittings, nuts, bolts and other irregular shapes, to provide a contours for subsequent tape wrapping.

Other: Sealing cable and pipe entry ducts, temporary plugging of spare ducts, filling electrical gland and junction boxes.
