

Henden H2 Robotic Pool Cleaner

The Henden H2 is our most affordable Robotic Pool Cleaner. Easy to use, it takes all the effort out of maintaining a perfect pool. The clever navigation technology ensures floors and walls are cleaned effectively, every time. Designed for easy use and maintenance, the H2 is a quality piece of pool equipment, guaranteed to last.

- > **On/Off power supply** for simple operation
- > **Clever scanning and navigation technology** for an effective cleaning route
- > **Additional ultra-fine filters** for a deeper clean
- > **Easy to clean filter basket** for simple maintenance
- > **15m cable length** for pools up to 10m long
- > **All terrain brush with active scrubbing technology**
- > **Dual tracks** for continuous traction

Features

- > **2 Hour Cleaning Cycle**
The quick cleaning cycle makes maintaining a pool easier than ever.
- > **Clever Scanning and Navigation Technology**
The combination of clever scanning software and a built-in navigation system, ensures pools are cleaned in using the most effective route, every time.
- > **Ultra-Fine Filtration**
The additional ultra-fine filters provided ensure a deep clean, every time.

Water Conditions	
Chlorine Maximum	4 ppm
pH Range	7.0–7.8
Temperature Range	6–34°C
Salinity Maximum	5000 ppm
Minimum Depth	0.80m/2.6ft
Maximum Depth	5m/16.4ft

Electrical Data	
Digital Power Supply Input:	200-230 AC Volts, 50-60 Hertz
Digital Power Supply Output	<30 VDC
Motor Protection	IP54

Pool Suitability	
Ideal Pool Length	Up to 10 metres
Cable Length	15 metres
Cycle Time	2 hours
Cleaning Coverage	Floor and walls

Dimensions	
A (Height)	250mm
B (Width)	400mm
C (Length)	425mm
Weight	6.5kg

Kit Components

- > H2 Robotic Pool Cleaner
- > Ultra-Fine Filters
- > H2 Power Supply
- > Filter Basket
