To order this item please advise:

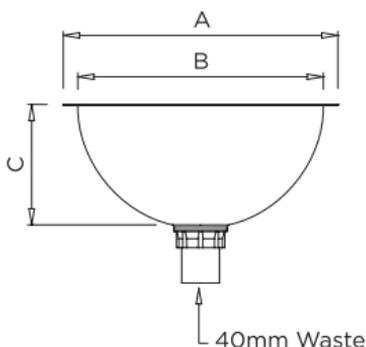

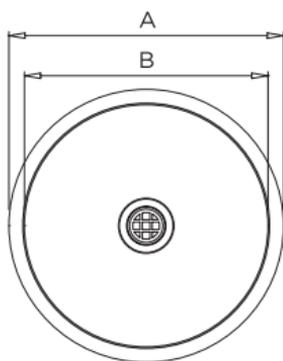

- HBH1: 300mm ID (340mm O/A) x 150mm Deep
- HBH2: 300mm ID (335mm O/A) x 115mm Deep
- HBH3: 250mm ID (285mm O/A) x 100mm Deep

Product Info:

- Three standard sizes
- Satin finish
- Suits top of under mounting
- Won't chip or break
- 40mm waste supplied
- Rolled edge

HBH - dimensions

	A	B	C
HBH1	Ø340	Ø300	150
HBH2	Ø335	Ø300	115
HBH3	Ø285	Ø250	100

INSTALLATION NOTES

- 1) If top mounting, diameter of cut out should be internal bowl diameter + 4mm so that the bench top provides maximum support to the basin flange. 2) A silicon sealant or adhesive tape should be applied to the underside of the flange for additional sealing and securing. 3) If under mounting, fixing holes will need to be pre-drilled in the bowl flange, silicon sealant applied, then screwed through to underside of substrate.
- 4) Cut out for under mounting is at client's discretion.
