

Silent+ MINI WHITE

CONDENSATE REMOVAL PUMP

Install a good nights sleep

SILENT

The World's quietest
Condensate Removal Pump

INTELLIGENT

Variable speed pump controls
flow only when required

EASY INSTALLATION

Optional easy fit
template provided

ADAPTABLE

Univolt – one product
suits all installations

At just 16dB(A) ultra quiet operation, officially the Silent+ Mini White is the quietest mini pump in the world. It is intelligent too – it only works when it has to!

This means that it's an ideal pump to fit under your high wall split unit in a bedroom, hotel room, reception or library – really anywhere that demands some peace and quiet.

Everything in the package is designed for ease of install. On the box is a quick start guide and perforated installation template.
