

Geberit ESG 3 electrofusion tool, 230 V

CHARACTERISTICS

- With remote control
- With integrated fall impact cushioning
- CE-compliant

TECHNICAL DATA

Degree of protection	IP55
Load resistance	5–68 Ohm
Fuse	12.5 A
Nominal voltage	100–240 V AC

Mains frequency	50–60 Hz	Welding cycle for electrofusion tapes	80 s
Welding current max.	5 A		
Mains cable length	4 m		
Coupling connection cable length	4 m		
Installation temperature	-10 – +50 °C		
Welding cycle for electrofusion couplings	80 s		
Welding cycle for electrofusion couplings with integrated thermal fuse	420 s		

SCOPE OF DELIVERY

- Connecting cable for electrofusion coupling
- Cable for electrofusion couplings with integrated thermal fuse
- Connecting cable for electrofusion couplings and electrofusion tapes

Art. no.	Reece no.	Protection class	Power consumption W	Weight of main element kg
