

In-Ground Box Cover

An innovative and compact solution that neatly stores the Henden Solar Pool Cover underground. The In-Ground Box Cover is made with strong, quality components that protect the Solar Pool Cover from UV rays and harsh weather when not in use. Designed for one person operation, the In-Ground Box Cover sits flush with paving and creates the perfect balance of functionality and style.

- > **Internal winder handle for easy access and use**
- > **Clever design to sit flush for a clean aesthetic**
- > **Anodised and corrosion resistant aluminium lid for longevity**
- > **Sealed bearings for protection**

Features

- > Anodised aluminium lid that sits flush to decking or paving
- > Built in winder handle that is safely stored inside the box for easy access
- > Durable internal mechanisms to prevent rust or corrosion
- > Sealed bearings to prevent sand, water or debris from entering the unit
- > Available in a range of sizes to accommodate any shaped pool

* The Henden In-Ground Cover Box is made to order and delivered directly to site only. We recommend that this product be installed by a pool or landscape professional.
