Evaporative Coolers

Kaden Evaporative Coolers effortlessly cool your entire home to your desired temperature and operating automatically when needed. They're powered by electricity and generates cold air through the evaporation process of air and water providing very efficient cooling.

KL - Low Profile Range

The Kaden Low Profile evaporative cooler features a stylish low profile design that sits contoured on your roof and delivers large volumes of air without the large profile of a traditional evaporative cooler.

Features:

- Low profile design
- High efficiency cooling pads
- Smart Water Management System
- Automatic Winterseal
- Super quiet axial fan

Model	Size	Airflow @100 Pa ESP	Motor (watts)	Pad Thickness (mm)	L (mm)	W (mm)	H (mm)	Weight (kg)	Dropper Connection (mm)
