Scala
**Making it
TIMELESS**

At Sussex, we believe in making *beautifully* functional products, manufactured entirely in Australia

Making it Right

We know, that Making it Right today, means Making it Right for tomorrow. Making with the highest principles, for a greener and more sustainable future.

Making it Right means made to last, timeless, beautiful and engineered to perfection.

Our four pillars that drive and support Making it Right:

Sustainability Leadership

As the first and only Australian tapware manufacturer to reach carbon neutrality, we are now the country's most sustainable tapware manufacturer by delivering on our promises and leading the way for others to follow.

Our People

We are a family of like-minded individuals, from our local Australian craftsmen to the dedicated partners and conscious customers that share our values. This ever-growing, living community is united under one cause: to do better, to be better, and to make better.

Manufacturing Mastery

Mastery is a long-term journey. For us, this means finding the balance between traditional techniques and the latest cutting-edge technology as well as competing on the world stage while remaining entirely in Australia.

Design Craftsmanship

Our story of craftsmanship began in 1997 with our founder, whose passion and pride in craft still lies in our heart. You'll see it in our tapware, designed for mindful moments. Take your time to enjoy our time spent.

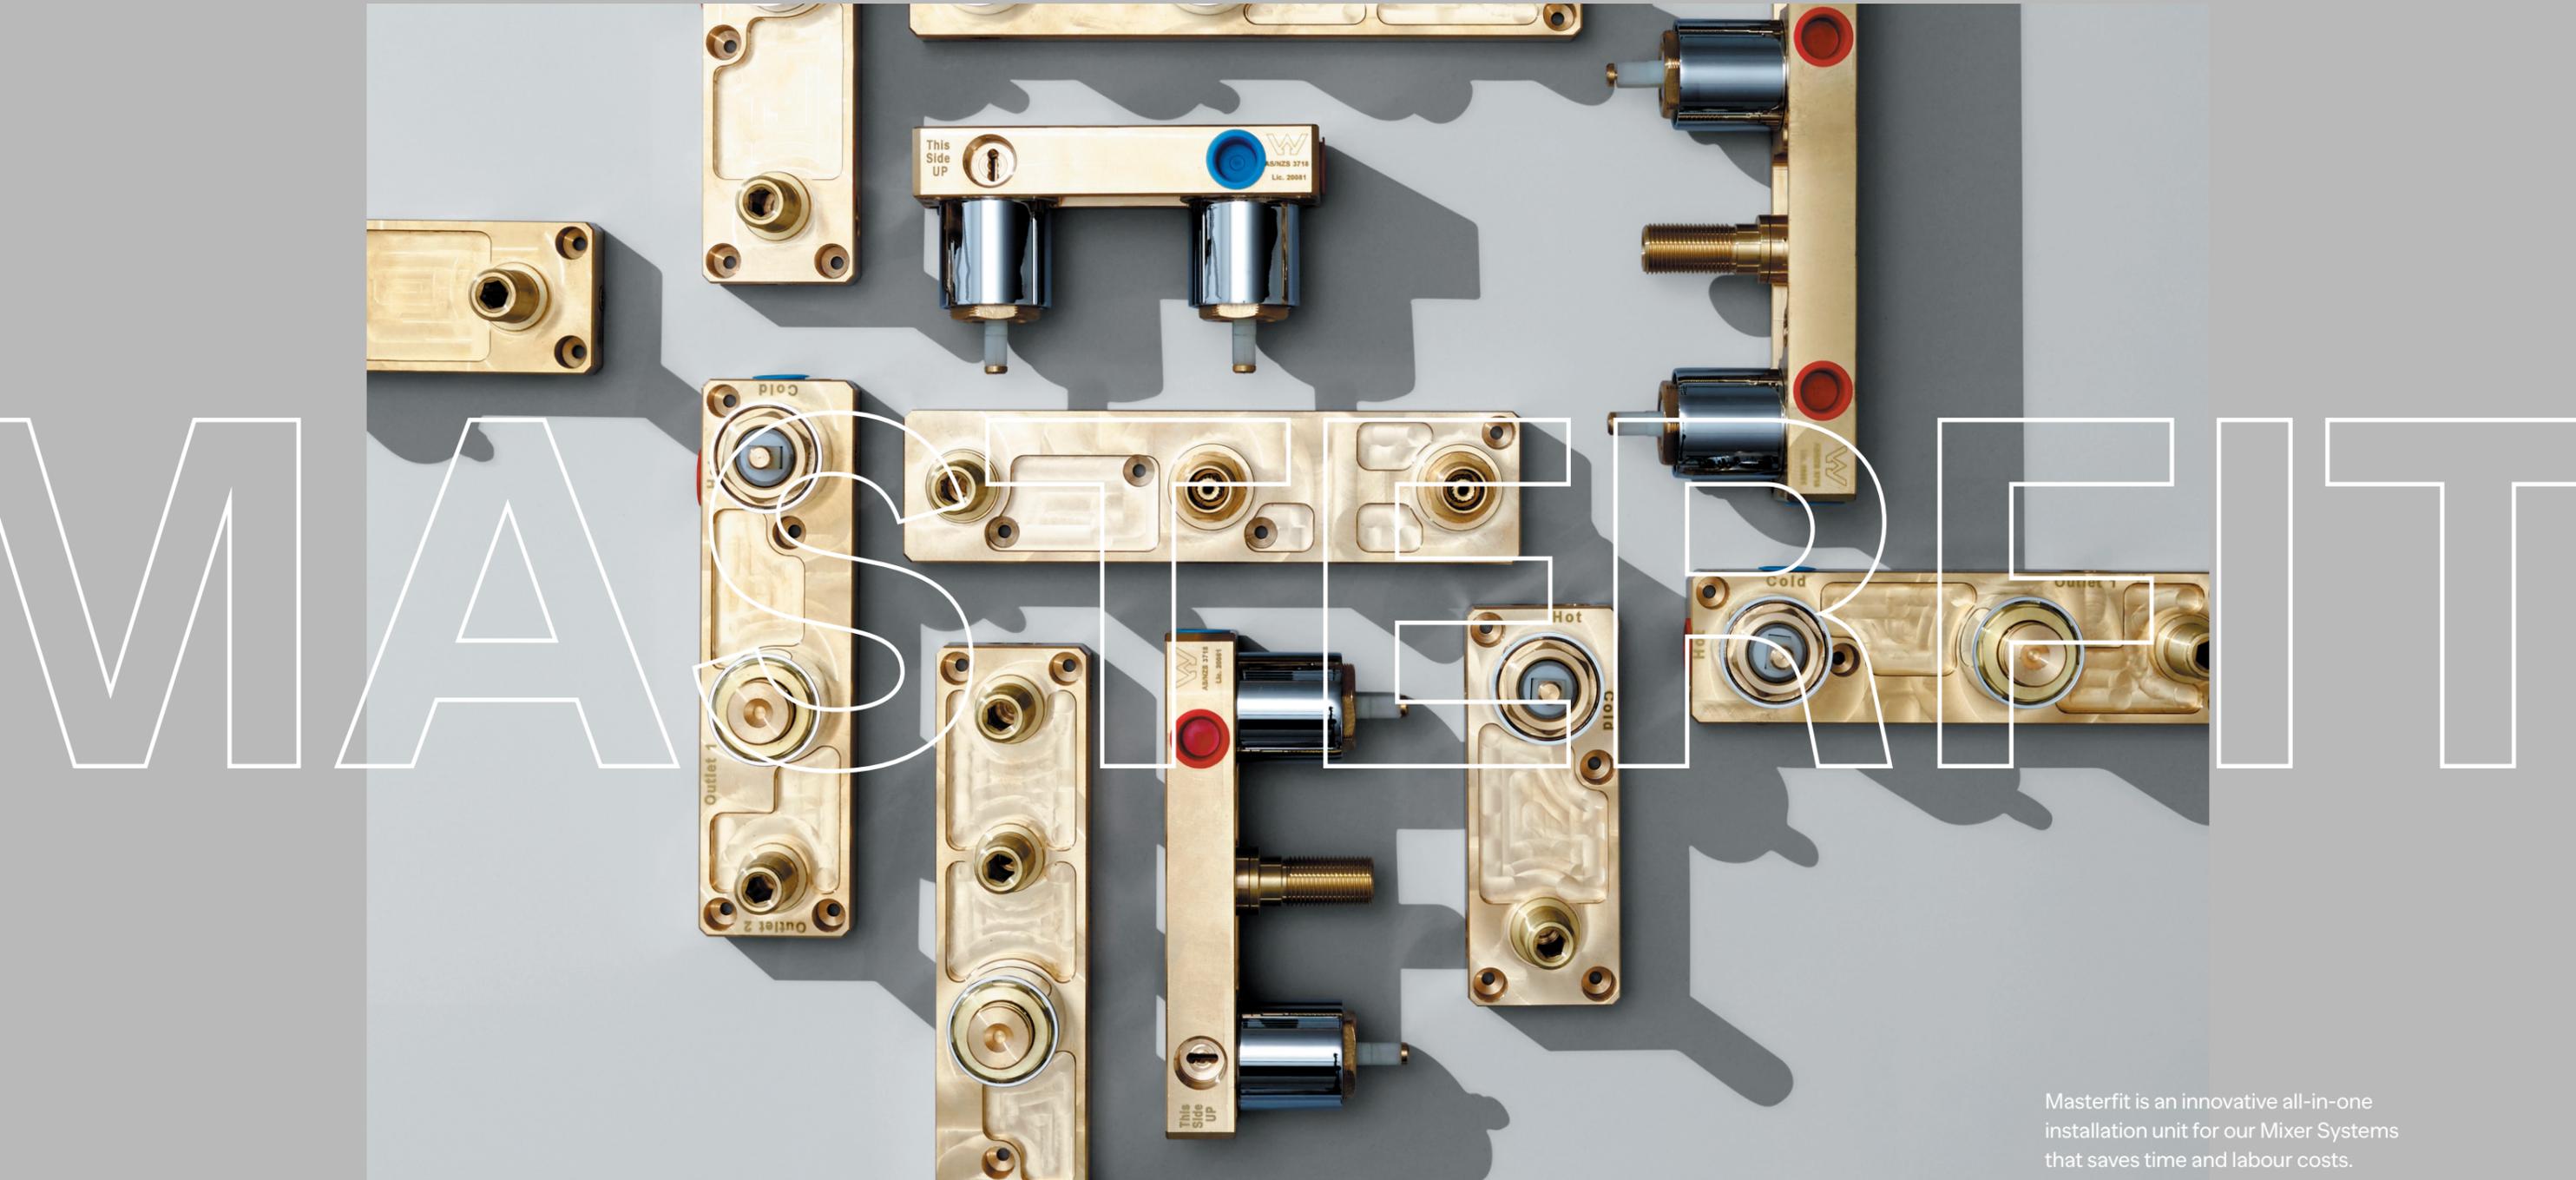

Australian made from start to finish

Sussex is a unique Australian manufacturer that produces tapware and accessories from its own foundry and workshop in Melbourne. We don't believe in sourcing product from overseas because we prefer to create our own original designs and employ our own dedicated artisans. We take full responsibility for the social and environmental impact of everything we make.

We are here to stay.

A unique innovation

Masterfit is an innovative all-in-one installation unit for our Mixer Systems that saves time and labour costs. Its proven simplicity eliminates the need for precise measuring of the distance between fittings as the tap alignment takes care of itself.

World's *first* carbon *neutral* tapware manufacturer.

Our ambitious goal of transforming our manufacturing operation and all our products to reach net zero emissions hasn't been easy, but it was necessary. We are now officially a member of the Climate Active network, one of the strictest carbon neutral certification bodies in the world. This is because we're committed to making things right. Which means putting our future first by using sustainable technologies, sourcing raw metals, and designing and manufacturing our products entirely in Australia.

As a Climate Active member, we have achieved our products and organisation certification through Australia's most rigorous process and testing. Our customers can be sure they genuinely buy carbon-neutral products and contribute to positive climate action.

Our Sussex
story is a *family*
adventure to build
an Australian
business with
sustainability at
its heart

Nick van Putten

Nicolaas Johannes van Putten
Our founder

In 1997, we were founded by Dutch watchmaker and jeweller Nicolaas Johannes van Putten. Guided by his spirit of adventure and courage to dream big, we confidently look forward, while respecting his traditional roots. Today we continue this vision to make the best product and leave an Australian-made legacy that creates a sustainable future for our next generation.

Introducing LUXPVD[®] to Australia - the next generation of *finishes*

At Sussex, we have the bold ambition
to be an innovative and world-class
Australian manufacturer.
Our LUXPVD[®] technology reflects
this design and engineering
excellence by offering luxurious,
unique, and exceptional finishes.

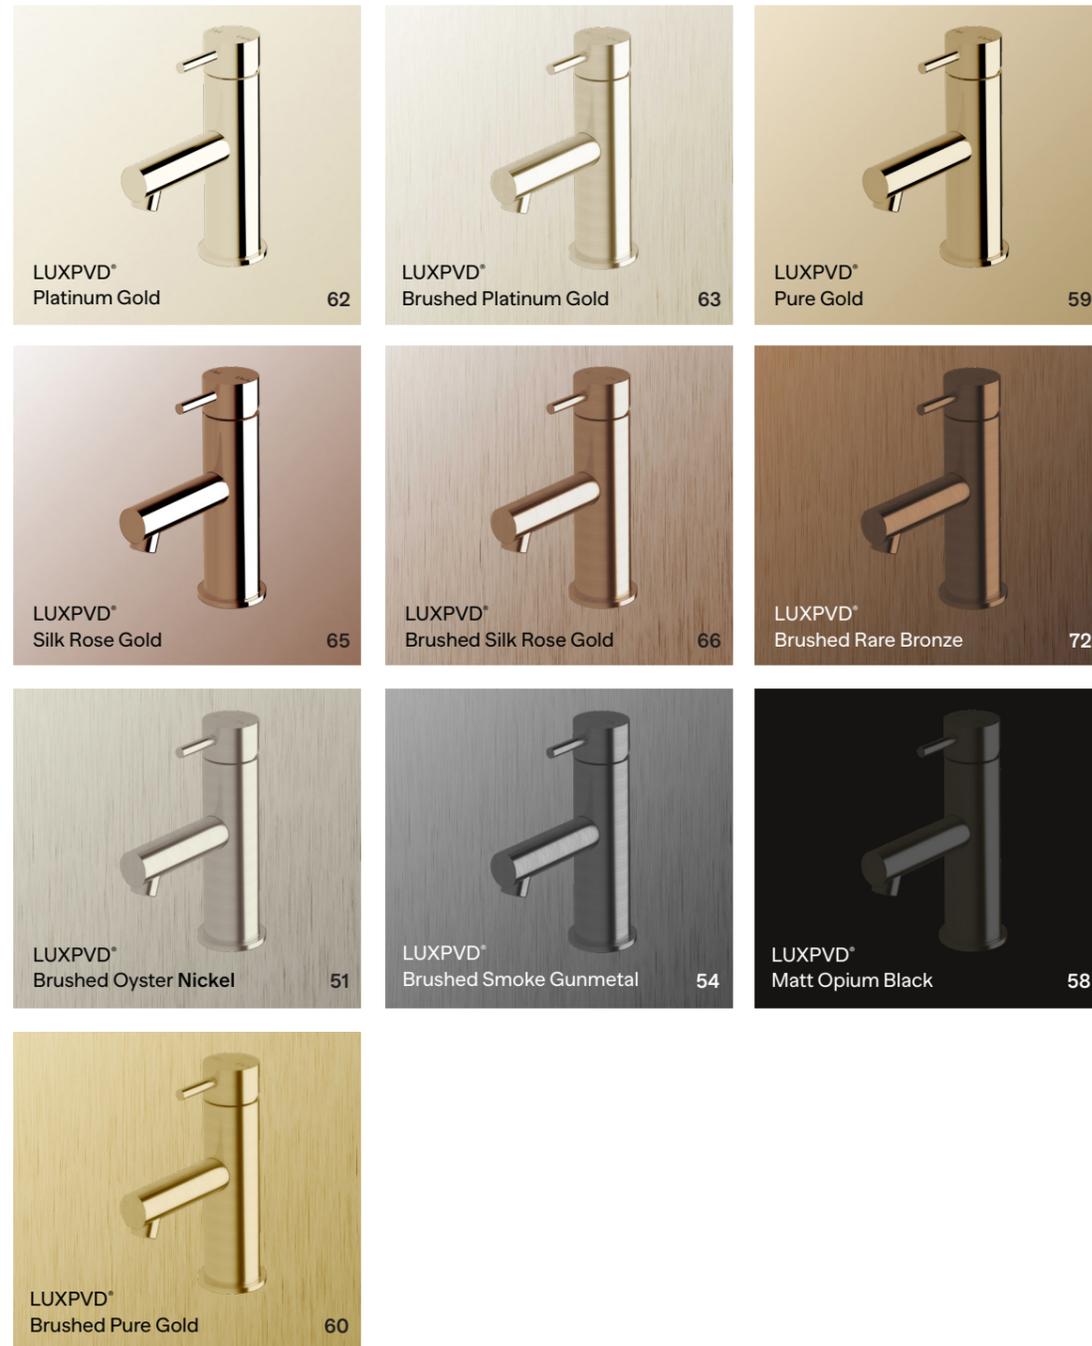

LUXPVD[®]

Perfect finishes
every single time.

Introducing
Scala

Inspired by the brass cylindrical bars and billets used in our foundry, Scala's clean, geometric forms have become a feature in homes throughout Australia. The allure of its classic design is that it remains as beautiful and striking as when our founder first designed it over twenty years ago.

Mindfully Crafted

Basin mixers

Scala basin mixers have proved a popular favourite in Australian bathrooms. They're available in varying heights and lever lengths.

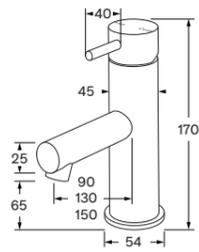

Basin mixer

Introducing

Pure Elementals

Where stone and metal are transformed into timeless expressions of design. From the cool strength of marble to the molten fluidity of hand-finished metal, these artisan works evoke the timeless resonance of creation itself.

Timeless Expression

Pure Elementals Customisation

Where stone and metal are transformed into timeless expressions of design.

Immerse yourself in a world where design meets the elements. Our bespoke marble and metal tapware pieces are more than functional—they are sculptural expressions of earth's primordial essence. Designed in Australia and crafted with a deep reverence for nature's raw beauty, each piece channels the ancient textures, sounds, and vibrations that existed before the world took form. From the cool strength of marble to the molten fluidity of hand-finished metal, these artisan works evoke the timeless resonance of creation itself.

Customisation lies at the heart of our ethos, allowing you to curate tapware that reflects your space, your story, and your connection to the natural world. Whether you seek the bold contrast of polished brass and deep-veined stone or a subtle harmony of muted tones and soft, tactile finishes, each piece is tailored to echo your vision—anchored in time, yet forever original.

Step one

Choose your finish

Staying true to Pure Elementals minimalist direction, six striking finishes* allow for adventurous contrasting or understated hues to shine.

*Also available in all Sussex Designer Finishes

Step two

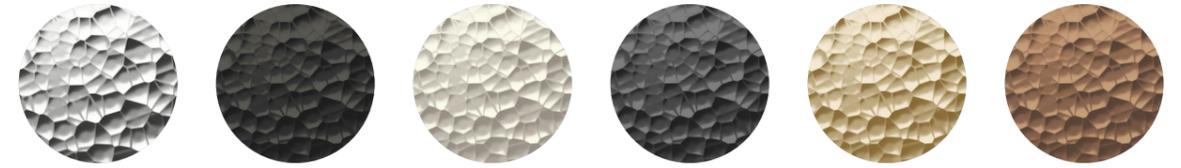

Choose your texture

Designed to contrast and crafted to endure, Pure Elementals textures add unique detail and enhanced tactility to its simple form.

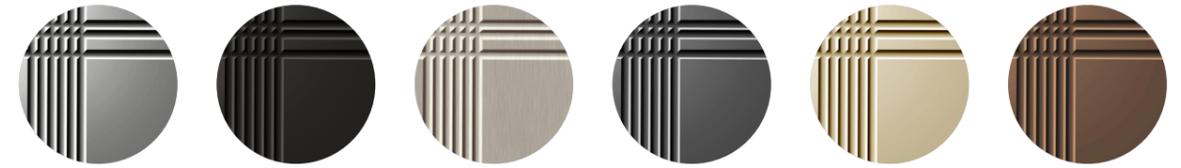

*Solace and Strati also available in all Sussex Designer Finishes

Pure Elemental Inserts

Solace – Hammered Brass

Artisanal warmth. Hand-finished hammered brass, alive with texture and reflective glow, refined yet grounding.

Strati – Geometric Brass

Architectural rhythm. Layered geometry and precise lines, echoing structure

Eclipse – Black Marble

Bold contrast. Deep black marble threaded with natural white veins, embodying timeless strength and mystery.

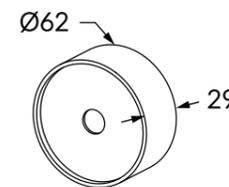

Aurora - White Marble

purity in stone. Soft grey veining across luminous white marble, evoking serenity and balance.
