### **CLEANING RECOMMENDATIONS**

We recommend the use of soapy water or approved cleaners.

This product should not be cleaned with abrasive materials.

Damage caused by any improper treatment is not covered by the product warranty- refer to Warranty Conditions.

## MIZU DRIFT HOB SPA SET

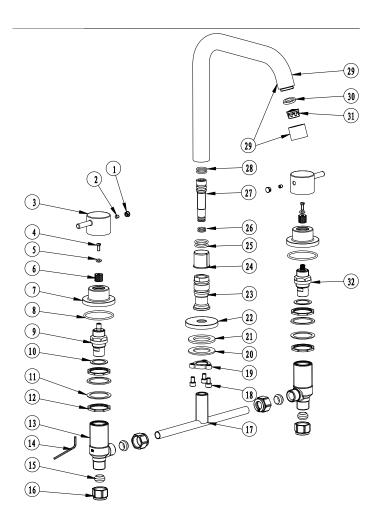

#### **INSTALLATION**

#### Note

Ensure water lines are flushed free of impurities

- 1. Attach stop bodies (14) to tee-piece (17). Fully tighten connections, but do not overtighten.
- 2. Insert stop bodies through basin holes ensuring that housing thread extends above basin level
- Adjust and fix stop bodies (14) into position using locking nuts (12 & 19)
- Separate cartridge locknut and fibre washer from cartridge (9).
- Grip the cartridge on the hexagonal flats and install cartridge fully into stop body untill it comes to a firm stop. Do not tighten cartridge into position by rotating spindle.
- Turn spindle to off position and turn on water at mains. Check that cartridge has fully seated. If dripping occurs then gentle tighten cartridge further until dripping stops.

- 7. Firmly tighten cartridge fibre washer and cartridge locknut into position.
- Place o-ring (8) into base of cartridge bonnet (7) and secure down onto cartridge by tightening bonnet by hand.
- 9. Turn cartridge to fully OFF position.
- 10. Assemble handle (3) onto cartridge (9) and secure in place by fixing with grub screw (2).
- Ensure rubber washer is inserted in underside of spout base flange (21)
- 12. Install outlet.
