Retrofit Strap Kit

## INSTALLATION GUIDE

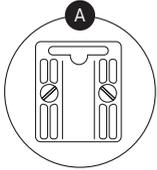

### NOTE

This kit is suitable for roller tubes ranging from 75mm to 120mm.

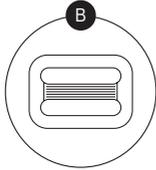

Please pass these instructions on to the owner of the pool.

## Components of your Henden Retrofit Strap Kit

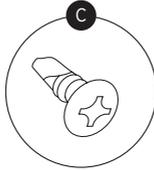

---

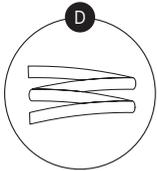

**Clips**  
6 Pieces

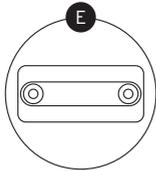

**Buckles**  
12 Pieces

**Screws**  
12 Pieces

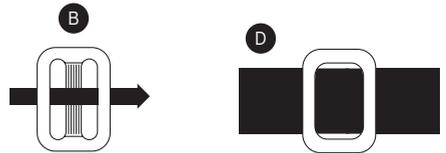

**Strap**  
6 Pieces

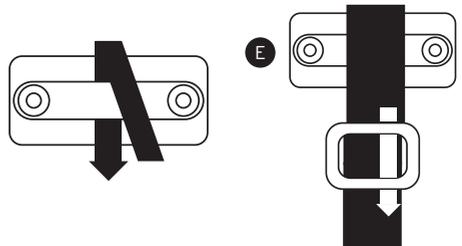

**Rollers**  
6 Pieces

- 
1. Take x1 strap (D) and x1 buckle (B). Insert the strap through 1 hole and back through the next hole pulling tightly, as seen in the diagram on the right.

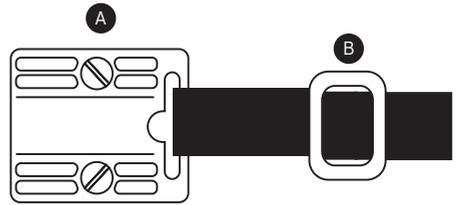

- 
2. Take x1 roller (E) and place the strap through the cut-out on the attachment. Then thread the strap backward through the buckle.

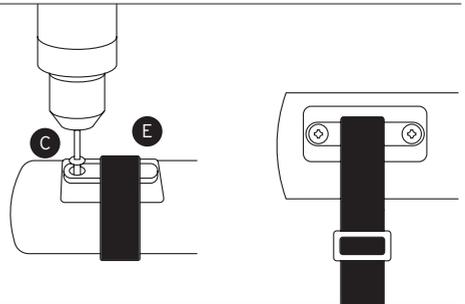

## Installing your Henden Retrofit Strap Kit

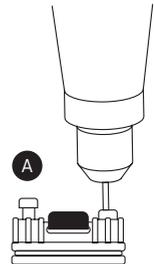

3. Take another buckle (B) and loop through the bottom of the strap as before. Then take x1 clip (A) and feed the strap through this, then back through the buckle.

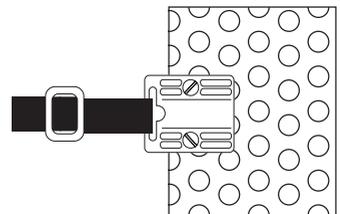

4. Take x1 roller (E) and line this up on the roller tube (each evenly spaced out to evenly spread the weight of the pool cover). Using x2 self tapping screws (C) drill into the roller tube. Continue doing so for all 6 rollers.

5. Using a flat head screw driver, open up all clips (A) and lay flat back, as per the diagram on the right and position the pool cover on top of the bottom side.

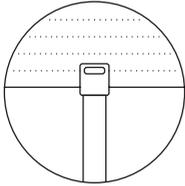

6. Flip the top part of the clip over on top of the pool cover. Using the screwdriver, let the 2 screws pierce through the cover, securing the cover onto the clips. Repeat for all clips.

## Warranty Information

Your Henden Retrofit Strap Kit is covered against manufacturer defects for 1 year from the original date of purchase.

**1 year**

Cover straps  
and clips
