## CLEANING RECOMMENDATIONS

We recommend the use of soapy water or approved cleaners.

This product should not be cleaned with abrasive materials.

Damage caused by any improper treatment is not covered by the product warranty. Refer to Warranty Conditions.

# STREAM WALL TOP ASSEMBLIES BRUSHED NICKEL

## INSTALLATION INSTRUCTIONS

### Note

Mixer must be installed by a licenced plumber.

### Installation Procedure

1. Check the breach is between 3-21mm from the finished wall
2. Check seats in recess tap bodies are in good condition and free of foreign materials. Reseal if required.
3. Separate locknut and fibre washer from cartridge
4. Grip the cartridge on the hexagonal flats and install cartridge fully into breach until it comes to a firm stop. Do not tighten cartridge into position by rotating spindle
5. Turn spindle to off position and turn on water at mains. Check that cartridge has fully seated. If dripping occurs then gently tighten cartridge further until dripping stops
6. Firmly tighten cartridge locknut and fibre washer into position
7. Screw bush connector onto cartridge locknut
8. Place wall flange and o-ring into position and screw chrome bush cover onto brass bush until it is tight against the wall
9. Turn cartridge spindles to the fully OFF position and assemble handle
10. Ensure that handle pins are pointing out to sides when in the off position
11. Fix the handle by tightening the grub screw with allen key and then push plug into position

**For basin top assemblies, follow installation steps 3-6, 9-11**
