

Crafted with Swiss precision,  
Nikles is intensely focused on  
the development of innovative  
showerheads and sprays that  
allow you to lose yourself in  
the moment.

From a powerful massage spray  
to a gentle uplifting spray, Nikles  
have perfected the delivery of life's  
most precious element – so you  
can feel free every day.

SWISS PRECISION

# Turbine

Shower Booster Technology

The revolutionary patented Turbine Technology by Nikles uses a turbine wheel within the shower head that increases water pressure for a powerful, massaging shower spray that can exhilarate the body and awaken the senses. The tapered design of the nozzles adds extra spin to each water stream, creating the sensation of a full shower regardless of the water pressure.

# Airdrop

Gentle Shower Technology

Nikles Airdrop® technology is a patented technology that enriches every drop of water with pockets of air, creating a gentle, uplifting feeling that envelopes the body. Airdrop® is a unique air injection process that simultaneously combines water and air in a series of mixing chambers, before delivering a rejuvenating spray that is soft and gentle on the skin. The highly compact engine allows for the design of ultra slim shower heads and hand showers.
