

# CLIC<sup>®</sup> R CLAMPS

The **next** generation of clamping in irrigation.  
**CLIC<sup>®</sup> R NOW AVAILABLE IN AUSTRALIA**

The next generation Clic® R has been innovated, engineered and produced in France by Caillau, the designers of the original screwless clamp, with more than 90 years manufacturing experience to the agricultural, aerospace and automotive industries.

### FEATURES AND BENEFITS OF CLIC® R

- Clic® R's unique locking system ensures the clamp is assembled and locked correctly every time - resulting in no twisting or off centre assembly
- Built in compensation loops provide elasticity to remain tight when tubes and hoses expand and contract from the effects of temperature and pressure changes
- Clic® R has rolled edges to protect tubes and hoses from pinching or damage
- Clic® R is constructed of high quality all stainless steel (AISI 304)
- No special tools are required to use Clic® R - a simple set of pliers is all that's needed
- Clic® R's excellent, even clamping force distribution prevents flat spots - ensuring a leak proof seal

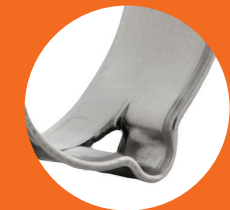

- Clic® R has been manufactured to resist high stresses from pressure, pull off and vibration
- Perfect for both commercial and domestic applications, Clic® R comes in a range of sizes to suit all popular LDPE Poly and Drip Tube sizes

### FIND THE CLIC® R THAT'S RIGHT FOR YOU

Article No	Designation	Part Description	Diameter Range mm*
4100040120	12.0	Clic R86 120 / 12.5-14.0	12.5-14.0
