

INSTALLATION

Components Supplied:

Basin complete with fixing brackets
40mm Waste Outlet

Components Supplied By Others:

Tapware
Wall anchors and fixings

Description:

Wall mounted vandal resistant basin, fabricated from 1.3mm type 304 stainless steel. All exposed surfaces polished to a satin finish, and corners ground to a rounded surface.

Basin is supplied with in built fixing brackets, single 35mm diam tap hole and 55mm hole to accept 40mm waste outlet and tap supplied by others.

Installation:

Basin is vandal resistant and should be mounted on a suitably constructed wall to support the unit, using the brackets provided and suitable wall anchors provided by others. Ensure that the basin is mounted level, and at the correct height.

Typically the basin should be mounted with the rim at 864mm above FFL, when not installed in a disabled area, or at a height suitable for the application.

If mounted in a disabled area, reference should be made to AS1428.1, with regard to location, height, and tapware.
