## CLEANING RECOMMENDATIONS

We recommend the use of soapy water or approved cleaners.

This product should not be cleaned with abrasive materials.

Damage caused by any improper treatment is not covered by the product warranty. Refer to Warranty Conditions.

# FLOW DIVERTER MIXER

## INSTALLATION INSTRUCTIONS

### Note

Mixer must be installed by a licensed plumber.

### Important

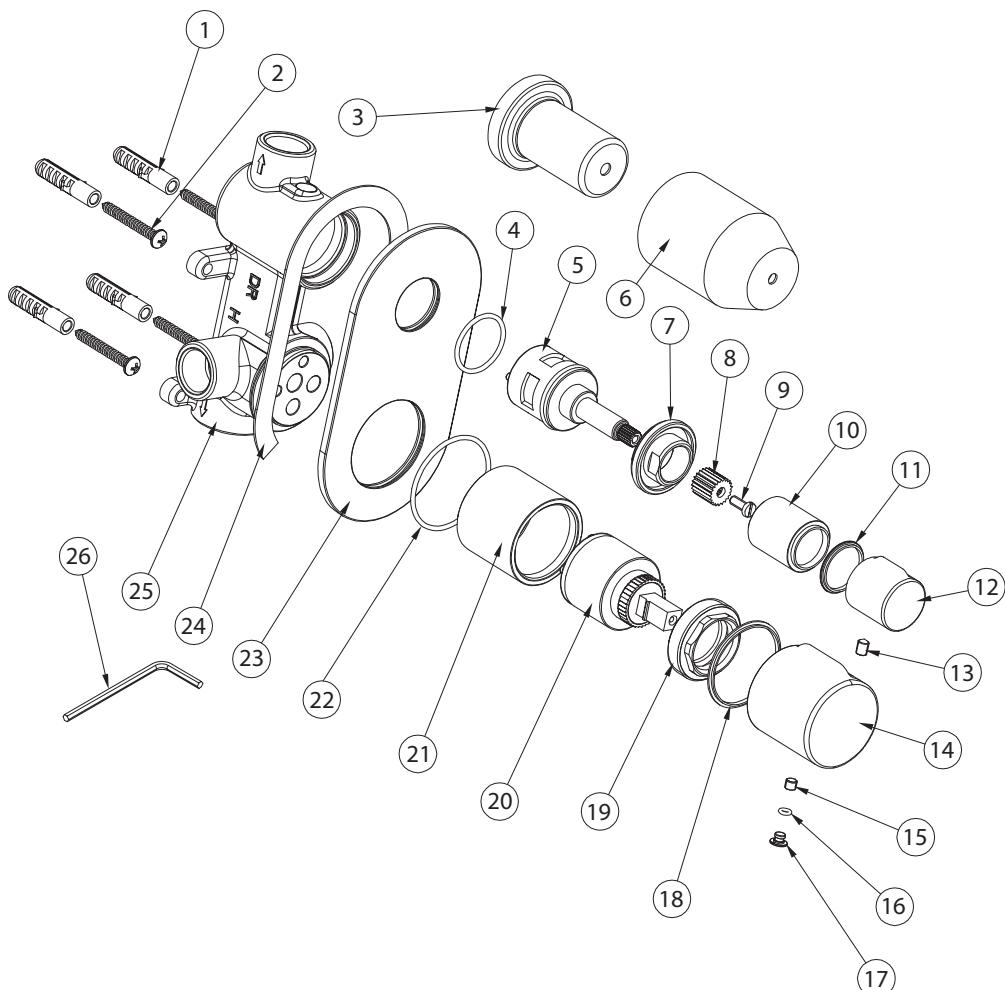

Your mixer comes to you already factory assembled and tested. We do not recommend the dismantling of any internal part of the mixer. The mixers are factory tested and sealed so as to give the best performance.

### Installation Procedure

1. Please flush out new pipe work prior to connecting the new mixer
2. During installation protect the exposed surface by using the plastic cover provided. Please pay attention to installation minimum/maximum depth
3. In a typical installation, the mixer is mounted on a timber/metal noggin and secured with screws
4. Shower Mixer Outlet must always face up toward shower. Connect mixer to hot and cold water supply
5. Pressure check all connections. Leaking joints are not covered by the warranty
6. When the wall is finished, remove the plastic cover and fit the cover plate, diverter knob and handle.
