JET TRANSFER PRESSURE PUMP

PRJ SERIES

This economical pressure pump is designed for the supply of water to the garden or a small house. It incorporates an automatic pressure controller, stainless steel casing and shaft, Noryl Impeller, Jet and Venturi for safety and reliability. Suitable for suction lift from underground tanks or tanks at differing levels.

APPLICATIONS

- Clean water transfer
- Small house (1 bathroom) or cabin supply
- Garden irrigation
- Suction lift applications
- Pressure boosting
- Laundry and garden taps

FEATURES & BENEFITS

- Reliable, efficient power-saving performance
- Automatic pressure controller giving consistent pressure supply
- Run-dry protection and thermal overload protection to protect the pump
- Special function on the pressure controller that automatically checks for water every 24 hours after a run dry event
- Tested to AS/NZS4020 for potable water

CONSTRUCTION

- Stainless steel casing and shaft
- Carbon/ceramic mechanical seal for reliability
- IP44 motor with B class insulation - install under a cover
- Quick plug pressure controller connection
- Stainless steel housing
- Noryl jet and venturi, diffuser, & impeller
- Brass barrel union
- RPC15ADSQP Pressure Controlle (code: 8744.QP)
